the all new revised fourth edition of banking law in the united states positions the text to address three challenges the need to maintain an historic record

and statement of existing law the need to document changes made to existing law and to report the deployment implementation and interpretation of new laws just as new laws in 1989 1990 and 1991 had significant impact on banking so new laws adopted in rapid succession in 2008 2009 and 2010 have altered the legal landscape in which banks and other financial institutions operate the dodd frank wall street reform and consumer protection act adopted in 2010 set the stage not only for new agencies new regulatory authorities and new market restrictions but also for extensive interpretive regulation and judicial interpretations implementing such changes as a result the all new 4th edition positions banking law in the united states to accommodate legal and market changes and whatever secondary reactive responses occur in the law and the environment in which it operates this new edition continues to meet the needs of practitioners courts legislators and regulators and those interested in better understanding the breadth and diversity and dynamic nature of banking law in the united states value package

the economics of banking fourth edition examines trends and operations in banking within a microeconomic framework covering a range of topics including global trends in banking theories of the banking firm economics analysis of bank behaviour and much more this book addresses the need for a user friendly and mathematically accessible textbook in this subject area each successful edition has expanded on new and emerging developments in global banking this fourth edition explores the challenge of fintech and non bank financing to the banking market it examines the implications of the digitisation of the means of payment on the banking system and the emergence of the digital bank it also addresses recent developments in shadow banking both globally and with a specific focus on china p2p islamic banks and challenger banks the section on credit rationing and credit pricing has been expanded to include additional material on the geography of credit allocation and spatial rationing china features strongly in the updated material on bank efficiency and competition bank regulation has also been updated to examine the recent changes in global bank regulation and particularly the application of basel iii standards to china and other asian economies the economics of banking provides a sound theoretical basis for understanding bank behaviour while requiring only a basic knowledge of microeconomics the book is aimed at final year undergraduates undertaking a banking finance degree and to mba and specialised pg degrees in finance that include a banking option
