the psychology of police deadly force encounters science practice and police is a fascinating look into the reality of police work the author integrates noted theories into a street wise understanding of being a police officer the focus of this book is on the use of deadly force by officers a topic of considerable importance the author discusses the psychosocial aspects of deadly force use stemming from the individual officer the situation organizational influences and the police culture expanding further into social issues the controversial topic of race and use of deadly force is discussed this depiction looks at both sides that of racial victimization and that of the police which helps to provide a rather unique perspective on this important issue of

interest the author breaks down the different dimensions of cognition as a factor in decision making among police including the perception of the situation the action taken depending on that perception and the role of present and past memory this will make for a useful training topic to alert officers to the cognitive processes that go into deadly force use processes that they have the control to change to make a better decision next the book delves into the biological factors that may be involved in police decision making again where deadly force is involved the various negative psychological impacts that a deadly force situation may bring about are identified and explained this book will be useful as a tool for both law enforcement practitioners and researchers to better understand the intricacies of deadly force by the police for researchers the book has a multitude of references available for further exploration it will prove to be a useful guide and reference volume for police managers and supervisors mental health clinicians investigators attorneys judges law enforcement educators and trainers rank and file police officers including expert witnesses

whether you are just pondering if you should go for the gold or are already radar locked on getting there this book making sergeant is for you written by a veteran police chief with over 50 years of law enforcement experience 15 of them spent as a sergeant it contains practical advice for 1 deciding on whether you are ready for the job and 2 getting it and succeeding at it if you are short on theory and long on pragmatic advice the text also will help the already promoted supervisor successfully meet the challenges of this complex but vital position as most law enforcement agency ceos will acknowledge first line supervisor or sergeant is often the single most important position in the police organization without the best efforts of the highly competent man or woman wearing the stripes the organization is destined to flounder in relative ineffectiveness in the worst case scenario the agency may fail in other words the sergeant has got to get it right this book will help you decide if you want to be that sergeant if you do it will help you be him or her if at least at this stage of your career you decide that the answer is no that s fine too there is not a law enforcement agency anywhere that has enough talented first line officers your goals may change later but if you choose to go for it the tips contained in this book will help you get there if you are already a supervisor making sergeant will help you get better at what you are already doing

authors franklin and hein have witnessed firsthand difficulties experienced in some black communities they use their knowledge to analyze and discuss the interactions between american policing a subculture of the black community and the blm movement the authors wrote this book not because of attacks on police officers but because of overzealous actions by officers to shoot black men it describes how blue on black shootings along with police tactics sometimes cause intense citizen responses through public statements outbursts and demonstrations it begins with an examination of the differences between the black and white communities how the same incident can be viewed from two different perspectives and how a discussion can be perceived unbiased by one but biased and unjust by another because of civil rights efforts american policing is going through a transformation a change in policing tactics must be met with a re evaluation of some cultural norms by the black community they also discuss the lack of support by blacks shown to other blacks when there is an impression of being not black enough the authors believe in political correctness but also believe that political correctness is harming the black community because well recognized negative issues in some communities are not being addressed to avoid criticism of black culture in the final chapter the authors discuss the failure of black leadership to make any earnest effort to rescue a wanting black subculture from itself finally the authors believe that american policing understands its 21st century obligations and is taking steps to meet them

this book provides a general orientation for survival using the author s everyone goes home approach as in previous editions to keep the police officer safe and secure it details the specifics the intelligent police professional must master in order to survive the many types of risky situations he will be exposed to over a career the book is painstakingly thorough in its approach to

officer survival in an era where peacekeepers are required to be highly transparent and accountable in all their actions every use of force by a law enforcement officer will be closely scrutinized this is one reason why it is important that today's officer has access to every viable tactic and technique that may prevent the need for force in the first place the book details everything from searching an arrested individual to searching a building arresting a 300 pound outlaw biker to a surly teenager techniques and strategies discussed in the book include personal preparation for risk reduction vehicle stops and contacts defusing disturbances domestic violence burglaries and structure searching barricades and hostage takers vehicle pursuits ambush attacks emotionally disturbed and mentally ill persons prisoner control and transport terrorist threats off duty confrontations and reducing the emotional risks involved at the end of each vital chapter a quick and concise risk reduction checklist is presented these chapter summaries are excellent for review and merit rereading by the police professional intent on surviving to a healthy retirement an appendix has been included containing informative accounts of police deaths culled from the law enforcement officers killed and assaulted report put together by the federal bureau of investigation other accounts are also found at the end of each chapter each one makes a point by way of grim example yet every tragedy described can help save the life of an alert police officer who might otherwise become one more statistic this unique and comprehensive text will be invaluable to all law enforcement professionals investigators policymakers and police academics

following is a chapter from the second edition of the complete guide to option selling fully up to date and expanded to be useful in today's markets it covers new strategies and new ways to approach selling options and futures so that you can continue to produce surprisingly consistent results with only slightly increased risk this book remains the only guide that explores selling options exclusively and is a cult favorite among the options selling community
