and international reference source in its field an entirely new work with new editors new authors new topics and newly commissioned articles with a handful of classic articles the first encyclopedia to exploit the multimedia potential of linguistics through the online edition ground breaking and international in scope and approach alphabetically arranged with extensive cross referencing available in print and online priced separately the online version will include updates as subjects develop ell2 includes c 7 500 000 words c 11 000 pages c 3 000 articles c 1 500 figures 130 halftones and 150 colour supplementary audio video and text files online c 3 500 glossary definitions c 39 000 references extensive list of commonly used abbreviations list of languages of the world including information on no of speakers language family etc approximately 700 biographical entries now includes contemporary linguists 200 language maps in print and online also available online via sciencedirect featuring extensive browsing searching and internal cross referencing between articles in the work plus dynamic linking to journal articles and abstract databases making navigation flexible and easy for more information pricing options and availability visit info sciencedirect com the first encyclopedia to exploit the multimedia potential of linguistics ground breaking in scope wider than any predecessor an invaluable resource for researchers academics students and professionals in the fields of linguistics anthropology education psychology language acquisition language pathology cognitive science sociology the law the media medicine computer science the most authoritative up to date comprehensive and international reference source in its field

assuming no prior knowledge of linguistics it discusses and illustrates all the major terms and concepts essential to the study of sentence structure in the world s languages noun and verb are explained and the properties of these categories are discussed the reader discovers what a finite verb is what first person singular means and what relative clauses look like concepts such as subject object gender case and subordination are introduced and exemplified initial illustration is from english with extensive additional material from several other languages exotic constructions not found in related european languages are fully covered so that verb serialization ergative languages and head marking languages are all included this new edition has been updated and revised to meet the needs of today s students difficult points are given fuller explanation a glossary of technical terms is included and additional exercises have been introduced to enable students to consolidate what they have learnt

includes section reviews

this is the first volume concerned with the phonological typology of syllable and word languages based on the model of a complex multi layered and hierarchically structured phonological system the main typological claim is that the phonetic and phonological make up of a language depends on the relevance of the prosodic categories in previous research the syllable and the phonological word have already proved to be typologically important the contributions in this volume discuss theoretical questions and address issues such as the variable structure of the phonological word the interplay between phonetics and phonology as well as the effect of a language s phonological make up on its morphology or lexicon the volume provides detailed synchronic and diachronic analyses of non indo european languages which will serve as a basis for further typological research

this is the story of a teacher of deaf students who quits in protest at ineffective educational policies lael herself born deaf exposes us to the confused inferior sometimes hostile educational conditions under which too many deaf children suffer today adapted from description on back cover

teaching english linguistics and literature combined explores the inextricable link between literature and language despite being treated as separate subjects in traditional nigerian secondary schools literature and english are deeply interconnected this book highlights the need to merge these disciplines to enhance students understanding and proficiency we examine how literary teachers often focus on the socio cultural economic and religious meanings of texts while linguistic elements receive less attention this imbalance can lead to students excelling in literary analysis but struggling with english language skills our book argues for a symbiotic relationship between literature and language suggesting integrated teaching approaches to improve education and learning outcomes through practical suggestions we aim to address the poor academic performance observed at secondary and tertiary levels in nigeria by fostering a comprehensive understanding of both literature and language students can achieve greater proficiency and success

challenges of information technology education in the 21st century strives to address a variety of pertinent questions surrounding the rapidly changing area of it education such as what topics are important for the 21st century how does the internet change the task of teaching what is the role of the professor in a world of online learning this exciting book will be an invaluable resource for educators in the field of information technology

this book provides a detailed analysis of two major aspects glottalization and nasalization of the phonology and phonetics of coatzospan mixtec as well as an overview of the segmental phonology of the language from a descriptive perspective this work provides the first published phonetic data on coatzospan mixtec one of the many underdescribed indigenous languages of the americas of theoretical importance the phonological analyses of glottalization and nasalization serve as examples of how optimality theory can be implemented in the extended treatment of a single language in contrast to the typological emphasis of most optimality research by focusing in detail on the whole of nasalization and glottalization systems the book explores the implications of optimality theory for the traditional notion of underlying representation in phonological theory and motivates an extension of the mechanism of constraint conjunction to include conditional relations holding between distinct constraints in the grammar at the same time the phonetic analyses provide an example of a detailed treatment of the phonetic implementation of nasalization and glottalization in the windows framework of special interest here is the relation between phonetic data and phonological feature specification in particular the data illustrate the complexity of the relationship between patterns of phonetic implementation and feature specification and lead to the conclusion that phonetic data must be interpreted in the context of the phonological system from which they are derived this book is of interest to linguists in general and especially to researchers in both phonology and phonetics to those interested in field work on underdescribed languages and to those interested in native american languages and linguistics
