excerpt from floral designs series i a hand book for cut flower workers and florists this little book upon which unusual labor has been expended is offered to the cut flower workers and florists of the country with the sincere hope that they will find it useful to them in their everyday work it is an experiment yet the publishers feel assured that it will be a successful one because such a work has long been needed substitutes in the shape of collections of photographs are to be met with occasionally only making more apparent the general need of some means for showing how floral designs look when actually made up as well as of offering suggestions to the florist and his customers in selecting designs for illustrations great care has been taken to present only those of moderate cost and difficulty such as will be constantly useful to the large majority of florists many superior effects have been regrettably laid aside because of their too

elaborate character or too great cost rendering them seldom or never available to many florists the publishers hope to present in a future volume a set of larger designs should the present work be found generally acceptable the complete analysis of these designs and the elaborate treatise on the proper handling of floral work and decorations beginning page 105 will be found useful and suggestive as showing how these things are done by a thoroughly successful artist and the many suggestions of designs and effects suitable for all occasions will doubtless save much thought and work if frequently referred to about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at [forgottenbooks.com](http://forgottenbooks.com) this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
