though much attention has been given to the prefabrication of architecture there has been little discussion on the influence and importance of prefabrication within the interior environment this book does just that providing a comprehensive investigation

into the prefab interior from the 19th century to the present and beyond each chapter focuses on a typology of the prefabricated interior looking at the bathroom kitchen workspace furniture mobile interiors the prefab house textiles wearables and the digital realm of printed interiors taken as a group these chapters and illustrations indicate that constructs of the interior have been pivotal in the generation of techniques and processes of prefabrication in architecture and the built environment chapters explore a diverse range of examples of innovative prefabricated elements and assemblages within interior environments illustrating the inherent sustainability accessibility building efficiency and affordability of prefabricated design the culmination of a decade of research by the leading expert on the topic this will be the go to resource on prefabricated interiors and an important read for all students and researchers in interior design

offers advice on how to transform small living spaces into comfortable and stylish areas while showcasing decorating ideas as displayed in thirty three small homes

in new scandinavian design design journalist katherine e nelson pairs with designer raul cabra to produce a comprehensive survey of cutting edge scandinavian design delving deep and taking a critical look at the exciting contemporary work from the northern countries central to the endeavour was the question posed to hundreds of designers curators policy makers and entrepreneurs is there still such a thing as scandinavian design featuring examples of contemporary furniture housewares textiles consumer electronics and lighting

for nearly forty years michael graves has produced architecture with a blend of classical rigor and abstract whimsy that has consistently garnered international recognition this the fourth chronological volume of michael graves buildings and projects documents the latest period in a career of award winning design with more than 100 projects illustrated by over 300 color photographs and architectural drawings by michael graves associates this volume demonstrates graves enduring status as a leading american architect michael graves recombines traditional architectural elements to expand and transform the language of architecture valuing character over style graves designs maintain a sense of experimentation while respecting scale culture and history michael graves considers himself a general practitioner rather than a specialist in any one building type or discipline he has widely influenced architecture interior design and industrial design as well as the classroom through his nearly 40 year career at princeton university he and his associates design not only the

architecture but also the interiors and furnishings of their projects. An extensive line of products for target has made high-quality design both affordable and readily available. The contemporary contextual designs of Michael Graves can be found worldwide from multi-use urban developments, corporate headquarters and hotels to libraries, museums, academic buildings and private residences. Projects in this volume range from the Washington Monument restoration, which transformed the restoration project into public art, to the United States Embassy compound in Seoul, Korea, and from the Life Magazine Dream House, which provided a well-designed and flexible prototype for the average house, to the Miramar Resort Hotel and El Gouna Golf Hotel and Club in El Gouna, Egypt.
