how do you study religion and society in this fascinating book some of the most famous names in the field explain how they go about their everyday work of studying religions in the field they explain how the ideas for their projects and books have come together how their understanding of religion has changed over the years and how their own beliefs have affected their work they also comment on the changing nature of the field the ideas which they regard as most important and those which have not stood the test of time lastly they offer advice to young scholars and suggest what needs to be done to enable the field to grow and develop further

widely used as a primer a class text or just a provocation to critical thinking studying religion clearly explains the methods and theories employed in the academic study of religion by tackling the problem of how we define religion written for newcomers to the field its chapters explore the three main ways in which religion is defined and along the way also considers a range of related topics from the history and functions of religion to public discourse on religion religion in the courts and the classification of religions the works of classic and contemporary scholars from karl marx and sigmund freud to bruce lincoln and wendy doniger are analyzed and explored in its readable chapters and detailed supporting materials studying religion represents a shift away from the traditional world religions approach and instead invites readers to consider how they divide up name and come to know the world around them thoroughly revised throughout this second edition now includes a significantly expanded glossary summaries of technical terms and global case studies at the end of each chapter and additional biographies of key scholars mentioned this book will be invaluable to all students of religious studies whether in the introductory class or as an example of an alternative way of approaching the field

widely used as a primer a class text or just a provocation to critical thinking studying religion clearly explains the methods and theories employed in the academic study of religion by tackling the problem of how scholars define and then study religion written for all newcomers to the field its brief chapters explore the three main ways in which religion is defined and along the way also consider a range of related topics from the history and functions of religion to its public discourse religion in the courts and the classification of diverse groups into world religions the works of classic and contemporary scholars from karl marx and sigmund freud to bruce lincoln and naomi goldenberg are analyzed and explored in readable chapters and detailed supporting materials studying religion represents a shift away from the traditional descriptive and comparative approach and instead uses the study of religion to invite readers to consider how they divide up name and come to know the world around them this edition also includes a new final chapter identification matters adding to the case studies included throughout this book to present a collection of contemporary instances where different approaches to defining and studying religion make it possible to study other issues of contemporary relevance including those involving gender race and the rights of indigenous peoples the new chapter makes explicit the practical topics of identity and status that have always been implicit throughout the entire book bringing into the classroom a wide variety of timely and relevant topics that can be better understood by its approach this book therefore remains invaluable to all students of religious studies whether in the introductory class or as an example of an alternative way of approaching the field

celebrating the contributions of panayotis pachis to the field this book discusses the past present and future of the study of religion in antiquity and modernity panayotis pachis has dedicated his celebrated career at the aristotle university of thessaloniki to the study of various aspects of ancient religions the contents of this book reflect pachis conviction that the study of religious ideas and practices should be focused on three pillars the study of history the formulation and application of theoretical frameworks and the utilization of traditional as well as innovative methodological tools chapters range from the scientific study of roman graeco religions cultural evolution and neurocognitive theories in the history and study of religion to a look at why we need an integrative approach to study religion past and present

how should ancient religious ideas be approached is religion an applicable term to antiquity should classicists ancient historians and religious studies scholars work more closely together nickolas p roubekas argues that there is a disciplinary gap between the study of greek and roman religions and the study of religion as a category a gap that has often resulted in contradictory conclusions regarding greek and roman religion this book addresses this lack of interdisciplinarity by providing an overview criticism and assessment of this chasm it provides a theoretical approach to this historical period raising the issue of the relationship between theory of religion and history of religion and explores how history influences theory and vice versa it also presents an in depth critique of some crucial problems that have been central to the discussions of scholars who work on graeco roman antiquity encouraging us to re examine how we approach the study of ancient religions

this volume contains the proceedings from the 2002 conference of the centre for property law at the university of reading and includes a wide range of papers from both english and international speakers covering many of the most topical issues within the law of property
