the routledge companion to cinema and politics brings together forty essays by leading film scholars and filmmakers in order to discuss the complex relationship between cinema and politics organised into eight sections approaches to film and politics film activism and opposition film propaganda ideology and the state the politics of mobility political hollywood alternative and independent film and politics the politics of cine geographies and the politics of documentary this collection covers a broad range of topics including third cinema cinema after 9 11 eco activism human rights independent chinese documentary film festivals manifestoes film policies film as a response to the post 2008 financial crisis soviet propaganda the impact of neoliberalism on cinema and many others it

foregrounds the key debates concepts approaches and case studies that critique and explain the complex relationship between politics and cinema discussing films from around the world and including examples from film history as well as contemporary cinema it also explores the wider relationship between politics and entertainment examines cinema's response to political and social transformations and questions the extent to which filmmaking itself is a political act

this book examines mass communication and civic participation in the age of oil analyzing the rhetorical and discursive ways that governments and corporations shape public opinion and public policy and activists attempt to reframe public debates to resist corporate framing in the twenty first century oil has become a subject of civic deliberation environmental concerns have intensified questions of indigenous rights have arisen and private and public investment in energy companies has become open to deliberation international contributors use local events as a starting point to explore larger issues associated with oil dependent societies and cultures this interdisciplinary collection synthesizes work in the energy humanities rhetorical studies and environmental studies to analyze the global discourse of oil from the start of the twentieth century into the era of transnational corporations of the 21st century this book will be a vital text for scholars in communication studies the energy humanities and in environmental studies case studies are framed accessibly and the theoretical lenses are accessible across disciplines making it ideal for a post graduate and advanced undergraduate audience in these fields

why nonprofit sector advocacy persists in canada despite the ongoing threat of regulation

a comprehensive depository of all information relating to the scientific and technological aspects of shale gas and alternative energy conveniently arranged by energy type including shale gas wind geothermal solar and hydropower perfect first stop reference for any scientist engineer or student looking for practical and applied energy information emphasizes practical applications of existing technologies from design and maintenance to operating and troubleshooting of energy systems and equipment features concise yet complete entries making it easy for users to find the required information quickly without the need to search through long articles

the world increasingly relies on groundwater resources for drinking water and the provision of food for a growing population the utilization of aquifer systems also extends beyond freshwater supply to include other resources such

as heat extraction and the storage and disposal of substances unlike other books about conflict resolution and negotiations over water resources this volume is unique in focusing exclusively on conflicts over groundwater and aquifers the author explores the specific challenges presented by these hidden resources which are shown to be very different from those posed by surface water resources whereas surface watersheds are static groundwater boundaries are value laden and constantly changing during development the book describes the various issues surrounding the governance and management of these resources and the various parties involved in conflicts and negotiations over them through first hand accounts from a practitioner skilled in both process and substance as a groundwater professional and professional mediator the book offers options for addressing the challenges and issues through a transdisciplinary approach
