a valuable collection the essays in the volume are all fresh the result of recent work and the opening chapter by garro and mattingly places the current trend in narrative analysis in historical context explaining its diverse origins and constructs in a range of disciplines shirley lindenbaum author of kuru sorcery a good place to consult the narrative turn in medical anthropology thick with the richness and diversity and stubborn resistance to interpretations of human stories of illness an anthropological antidote for too narrow a framing of the complex tangle of ways of being and ways of telling that make medicine a space of indelibly human experiences arthur kleinman author of the illness narratives

in times of uncertainty and crisis the mental health of individuals become a concern as added stressors and pressures can cause depression anxiety and stress today especially with more people than ever experiencing these effects due to the covid 19 epidemic and all that comes along with it discourse around mental health has gained heightened urgency while there have always been stigmas surrounding mental health the continued display of these biases can add to an already distressing situation for struggling individuals despite the experience of mental health issues becoming normalized it remains important for these issues to be addressed along with adequate education about mental health so that it becomes normalized and discussed in ways that are beneficial for society and those affected along with raising awareness of mental health in general there should be a continued focus on treatment options methods and modes for healthcare delivery the research anthology on mental health stigma education and treatment explores the latest research on the newest advancements in mental health best practices and new research on treatment and the need for education and awareness to mitigate the stigma that surrounds discussions on mental health the chapters will cover new technologies that are impacting delivery modes for treatment the latest methods and models for treatment options how education on mental health is delivered and developed and how mental health is viewed and discussed it is a comprehensive view of mental health from both a societal and medical standpoint and examines mental health issues in children and adults from all ethnicities and socio economic backgrounds and in a variety of professions including healthcare emergency services and the military this book is ideal for psychologists therapists psychiatrists counsellors religious leaders mental health support agencies and organizations medical professionals teachers researchers students academicians mental health practitioners and more

the year 1998 witnessed the birth of a new disorder internet addiction disorder as the number of linkage points host computers connected networks and individual users plugged into the internet has continued to increase exponentially some have begun to question the net's impact on our psychological well being among the issues under debate is the question of whether or not internet use is addictive though many regular internet participants scoff at such an idea and create satirical websites irc chat rooms and usenet newsgroups make their point a growing number of professionals in the field of psychology disagree they argue that internet participation is addictive and that in many ways its symptoms diagnosis and treatment parallel that of other addictions such as compulsive gambling shopping and even drug and alcohol use what are we to make of this new disorder what precisely does addiction mean can individuals really become addicted to the internet this groundbreaking book examines these questions from a sociological perspective

despite its gold standard status the ebp movement is faltering because while much effort has gone into developing an idealised model of the way clinicians ought to use best evidence there is less understanding of why they often don't this book examines how clinicians do actually develop and use clinical knowledge

mental health and wellbeing has become an increasingly important issue that impacts communities in multiple ways a critical discussion on the understanding and access of mental health services by people from diverse backgrounds is important to improving global healthcare practices in modern society mental health policy practice and service accessibility in contemporary society provides innovative insights into contemporary and future issues within the field of mental healthcare the content within this publication represents the work of medical funding social inclusion and social work education it is a vital reference source for post graduate students medical researchers psychology professionals sociologists and academicians seeking coverage on topics centered on improving future practices in mental health and wellbeing

this volume is an important contribution to our understanding of culture and alcohol in the united states its appearance is also a milestone in the history of alcohol studies in american anthropology over the last six years the volume's editors initially along with miriam rodin have served as the coorganizers of the alcohol and drug study group of the american anthropological association aaa in this capacity they have organized sessions at the aaa and other meetings greatly strengthened the research network with a regular and informative newsletter and painstakingly promoted the publication of anthropological work on alcohol and drugs appearing just as the

responsibility for the study group is passed on to others this book is a fitting emblem of the care and energy with which its editors have built an institutional nexus for alcohol and drug anthropology in north america the contents of this volume offer a uniquely wide sampling of the diversity of cultural patterns that make up the american experience with alcohol the collective portrait the editors have assembled extends in several dimensions through time and history across such social differentiations as gender age grade and social class and through such major social institutions as the church and the family clearly the dominant dimension of variation in the material that follows however is ethnicity the book offers us a sampler of unprecedented richness of the different experiences with alcohol of american ethnoreligious groups

phil brown has designed this book to make discussion of the issues of medical sociology interesting accessible challenging
