osterhammel s book represents a new approach to the subject the concise but sweeping study encompasses the process of colonization and decolonization from the early modern period to the twentieth century virtually all other studies to date have looked at strategies of colonial conquest exploitation and rule from the imperial point of view osterhammel shows that the colonial situation developed in ways that duplicated neither the metropolis nor the pre colonial society but instead blended these and added a new direction characteristic only of colonial realms he emphasizes that the europeans were normally not considered dangerous invaders by local populations until they threatened the traditional cultures with missionaries european schools and bureaucracy

concisely written and compelling this book offers a provocative look at european american relations it focuses on the tradition of common political ideas the original roots of common european and american thought the decision by the two continents not to develop in isolation from one another and the traditional ambivalence of the european caught indecisively between reliance upon and distance from the united states from classical antiquity to contemporary society mathiopoulos unfolds the paradoxical relationship between the u s and europe the simultaneous occurrence of reciprocal attraction and mutual misunderstanding she describes how america was born of european intellectual stock enlightenment reason religious freedom equality democracy the rights of man and the desire to achieve these things in the new world she also tells us that the idealism of progress of the european enlightenment gave rise to the american dream which constitutes the consciousness of the american people and is woven into their domestic and foreign policy to this day this stimulating book will interest anyone involved in the field of comparative political thought as well as those interested in the evolutionary and revolutionary process of the idea of progress in europe and the united states the idea of progress forms the core history and progress mathiopoulos shows that faith in progress and the desire for a better world have been the major stimuli for historical change in the modern world she describes how europe gave birth to this idea and throughout history became largely disenchanted with it in contrast the united states inherited this concept and has utilized it for over 200 years to maintain its sense of identity and self awareness history and progress explains not only how the idea of progress inspired the founding of america but how the concept provides momentum for the historical development of the nation to the present in short the american dream preserved the progressive optimism projected by the enlightenment in the united states even when it had since disappeared from european historical thought
