the result of extensive collaboration among leading scholars from across europe conceptual history in the european space represents a landmark intervention in the historiography of concepts it brings together ambitious thematic studies that combine the pioneering methods of historian reinhart koselleck with contemporary insights and debates each one illuminating a key feature of the european conceptual landscape with clarifying overviews of such contested theoretical terrain as translatability spatiality and center periphery dynamics it also provides indispensable contextualization for an era of widespread disenchantment with and misunderstanding of the european project

mention the phrase homeland security and heated debates emerge about state uses and abuses of legal authority this timely book is a comprehensive treatise on the constitutional and legal history behind the power of the modern state to police its citizens dubber explores the roots of the power to police the most expansive and least limitable of

governmental powers by focusing on its most obvious and problematic manifestation criminal law he argues that the defining characteristics of this power including the inability to accurately define it reflect its origins in the discretionary and virtually limitless patriarchal power of the householder over his household the paradox of patriarchal police power as the most troubling yet least scrutinized of governmental powers can begin to be resolved by subjecting this branch of government to the critical analysis it merits dubber shows us that the question must become how can the police power and criminal law together serve the goals of social equity that define and give direction to contemporary democratic societies this book goes to the heart of this neglected but crucial topic

reinhard koselleck 1923 2006 was one of most imposing and influential european intellectual historians in the twentieth century constantly probing and transgressing the boundaries of mainstream historical writing he created numerous highly innovative approaches absorbing influences from other academic disciplines as represented in the work of philosophers and political thinkers like hans georg gadamer and carl schmitt and that of internationally renowned scholars such as hayden white michel foucault and quentin skinner an advocate of grand theory koselleck was an inspiration to many scholars and helped move the discipline into new directions such as conceptual history theories of historical times and memory and across disciplinary and national boundaries he thus achieved a degree of international fame that was unusual for a german historian after 1945 this book not only presents the life and work of a great thinker and european intellectual it also contributes to our understanding of complex theoretical and methodological issues in the cultural sciences and to our knowledge of the history of political historical and cultural thought in germany from the 1950s to the present

a scholar of hellenistic and prussian history droysen developed a historical theory that at the time was unprecedented in range and depth and which remains to the present day a valuable key for understanding history as both an idea and a professional practice arthur alfaix assis interprets droysen s theoretical project as an attempt to redefine the function of historiography within the context of a rising criticism of exemplar theories of history and focuses on droysen s claim that the goal underlying historical writing and reading should be the development of the subjective capacity to think historically in addition assis examines the connections and disconnections between droysen s theory of historical thinking his practice of historical thought and his political activism ultimately assis not only shows how droysen helped reinvent the relationship between historical knowledge and human agency but also traces some of the contradictions and limitations inherent to that project

writing conceptual histories introduces conceptual history as a research perspective and as a lens through which we can study the past and present this book provides students and researchers with an overview of and easy access to central concepts of conceptual history and its practical applications with an introduction that relates conceptual history to historical semantics rhetoric intellectual history and discourse analysis a glossary explaining central analytical concepts and inspiring case studies of various types of conceptual history the volume serves readers interested in the theory of conceptual history and those seeking concrete methods for analysis writing conceptual histories adopts an innovative case study approach showcasing novel histories of democracy ideologies science and technology studies human rights compassion sexual identity climate change and crisis the case studies concretely present different ways of writing conceptual history guiding readers on how to

write conceptual history and encouraging them to experiment with a variety of methods the volume boasts a variety of pedagogical features including a glossary of key terms and concepts a unique case study approach to theory and method recommended readings at the end of each chapter

this volume contains essays that explore topics in the social history of europe from 1350 to 2000

german peasants and agrarian politics 1914 1924 the rhineland and westphalia

ever since the late 18th century european society has been undergoing a transformation in which the most dynamic element has been the middle class this provocative book contains the first comprehensive study of 18th and early 19th century bourgeois society by american european and israeli scholars in history anthropology literature sociology and law they examine the specific characteristics of the middle class social types the extent to which their values and interests altered the texture of 19th century european society and national differences that emerged in their development
