this book will teach readers how to properly research stocks and how to construct a balanced portfolio the key in the book is that it presents advanced research techniques in an easy to understand format enabling readers to intelligently make their own decisions and being confident that they have done a thorough research before they invest in a stock and construct their portfolio

diploma thesis from the year 2008 in the subject business economics investment and finance grade 2 0 university of applied sciences essen language english abstract historically considered fundamental and technical analyses have always competed often leading to advocates that ideologically judge either a fundamental analysis or technical analysis to be the one and only analyzing concept behavioral finance is a relatively new scientific approach to explain psychological anomalies on the stock market but is also more and more often considered to be able to compete with both fundamental and technical analyses still do these analysis concepts really compete in practice or could they actually supplement

each other with their respective strengths taking the turbulent stock market phases as well as these unanswered questions about fundamental analysis behavioral finance and the technical analysis into consideration this thesis ultimately pursues two general objectives firstly fundamental analysis behavioral finance and technical analysis should be scientifically examined in terms of their premises analysis approaches empirical evidences as well as strengths and weaknesses secondly it should be examined as to whether the fundamental analysis behavioral finance and technical analysis have theoretical and practical synthesis capabilities that could be used for developing a synthesis concept the synthesis concept should combine the respective strengths and eliminate the respective weaknesses of each of the three analysis concepts fundamental analysis behavioral finance and technical analysis are examined in detail empirical studies should prove if and by which approaches the analysis concept is able to predict future stock prices in order to be able to develop a synthesis concept each analysis concept is evaluated by a swot analysis pursuing the objective of determining the respective strengths weaknesses opportunities and threats of the analysis concept being considered based on the previous swot analyses the sixth chapter examines the synthesis capabilities of the fundamental analysis behavioral finance and technical analysis in a first step the synthesis capabilities are theoretically analyzed based on the theoretical consideration the synthesis capabilities are also practically examined in a second step a broad empirical study using the example of the dax performance index analyzes the predictive capabilities of the three analysis concepts by evaluating the theoretical as well as the practical synthesis capabilities a general conclusion is drawn about the synthesis capabilities

here is a sample chapter from lifespan investing which lays out a successful path for creating wealth over your lifetime veteran author and trader clifford pistolese deftly explains the need for this approach and the techniques for maximizing wealth at every age stage of life and market condition presenting an age based portfolio management plan pistolese shows how to take advantage of capital gains opportunities during bull markets avoid loss of capital during bear markets and increase assets and income flow during range bound markets

this is the ebook version of the printed book this element is an excerpt from technical analysis plain and simple charting the markets in your language 9780137042012 by michael n kahn cmt available in print and digital formats discover the surprising technical underpinnings of conventional fundamental stock

analysis let's take a close look at fundamental analysis if a company has raised its dividends consistently each quarter the stock should rise if earnings continue to grow that is good too this seemingly fundamental information certainly sounds like a pair of rising trends to a technician a rising trend in underlying factors usually translates into a rising trend in the stock price

scientific study from the year 2010 in the subject business economics controlling grade 71 university of westminster westminster business school course msc finance and accounting language english abstract the purpose of our analysis is to advise a potential investor who is considering the entrance in the telecommunication sector in the uk our investor is a pension fund which is looking for constant long term performance and steady stable streams of cash in order to carry out its short term liabilities with its depositors we classify our investor as a low risk profile investor whose preference is high dividend income rather than capital gain under this perspective our report will analyze vodafone group vodafone and bt group plc bt the largest telecommunication companies in the uk our aim is to compare and critically analyze both companies to reach an investment decision considering our investor needs
