this fascinating collection of essays contains a variety of perspectives about the use of expressive arts for facilitating physical and emotional healing each author within brings a fresh approach and

unique experiences to their writing within these pages you will find many ideas for the use of the arts and can learn how to engage the inner layers of the self that allow natural healing processes of the body and soul to flourish when we fully engage an art modality we find ourselves in a place in our consciousness that could be called healingspace where we feel ourselves whole and remember ourselves as well from psychic trauma to physical illness disease of many kinds may be addressed through the various techniques discussed here the tools offered by some authors are population specific and age appropriate while several authors have given us the philosophical underpinnings for it all while the authors within represent the grassroots voices of this new and rapidly expanding field several of them have developed their own methods for using the arts and have thriving practices our approach is wholistic music visual arts movement dance and poetry are discussed as separate modalities and in combination with one another in a process or flow the reader will engage in our experiences with these modalities as they have been lived the complementary cd that accompanies this book will allow the listener to have a full sound experience of toning if a rationale is needed for establishing arts programs in medical centers or other health facilities it can be found here the book offers tools for self development and for group facilitation those wanting to expand their healing practice through the use of the arts will find the book to be a faithful guide anyone wishing for a fuller understanding of how the arts may work to facilitate healing will find much food for thought within these pages

this book takes you on private visits to ten danish contemporary artists where we are allowed behind the scenes insight into the creative process we see both ongoing and completed works the materials tools and thought processes used through conversations with the artists we are party to their own stories as to why they became artists and how they arrived to where they are today what consumes them what drives them what inspires them 0after each artist portrait we are welcomed inside the individual homes of true art collectors some are vibrant and colourful others are monochrome and more subdued some are very feminine while others exude masculinity the common denominator is that they are brimming with art and that everything has been thought through they also happen to have a work by the artist we have just visited we ask what art means to them and show how they align themselves with the pieces

analyze understand appreciate living with art provides the tools to help students think critically

about the visual arts using a wealth of examples the first half of the text examines the nature vocabulary and elements of art offering a foundation for students to learn to analyze art effectively the latter half sets out a brief but comprehensive history of art leading students to understand art within the context of its time and place of origin high quality images from a wide range of periods and cultures bring the art to life and topical essays throughout the text foster critical thinking skills taken together all of these elements help students to better appreciate art as a reflection of the human experience and to realize that living with art is living with ourselves

a rare entry into the nexus of science and art this thought provoking exploration introduces the ongoing research by scientists and artists into the fascinating subject of death and mortality the unique practices of medical and scientific artists share a desire to piece the world together using the power of representational drawing their common belief that to draw is to see seeks to answer the riddles of mortality through the cultivation of their art and what begins as an exploration of death ultimately becomes a celebration of life this collection presents an introduction to the front lines of medical and scientific art elaborating upon the ethos of their movement and showcasing some of their greatest discoveries

addressing comorbidities and risk factors for tuberculosis tb is a crucial component of the world health organization who s end tb strategy these consolidated guidelines on tuberculosis module 6 tuberculosis and comorbidities summarize the latest who recommendations on tb and key comorbidities it is a living document and will include a separate section for each of the key tb comorbidities or health related risk factors this first edition focuses on interventions to address hiv associated tb and is an update of the who policy on collaborative tb hiv activities guidelines for national programmes and other stakeholders people with hiv are 12 16 times more likely to develop tb disease have poorer tb treatment outcomes and have three fold higher mortality during tb treatment compared to people without hiv despite advances in the screening diagnosis treatment and prevention of tb disease tb remains the leading cause of death among people with hiv worldwide these consolidated guidelines are intended for use by people working in ministries of health particularly tb programmes and the relevant departments or programmes responsible for comorbidities and health related risk factors for tb as well as programmes addressing mental health and lung health implementing partners including technical and funding agencies civil

society and representatives of affected communities clinicians and public health practitioners

the who global strategy on human resources for health encourages development partners and global health initiatives to leverage their support to health systems in countries to strengthen sustainably the health workforce this impact assessment tool stems directly from an integrated conceptual model and it integrates relevant literature and novel empirical results that indicate positive associations among hrh investments four key treatment service indicators and health impact on the burden of hiv tb and malaria the tool can demonstrate the feasibility of estimating improvements in service treatment and lives saved for hiv tb and malaria deriving from investments in hrh by assessing and quantifying the health impact of hrh investments made in the context of hiv tuberculosis tb and malaria programmes through their modelled effect on health service coverage of these three diseases and providing aggregate indicative estimates of the range of health workers required to attain high coverage of selected health services the tool is targeted at planners and managers at national or international level of large scale disease specific programmes that include a substantial health workforce component the goal is to enable better understanding of the potential return on hrh investments as a policy and programme planning function of grant making or other health financing activities
