the oxford handbook of public choice provides a comprehensive overview of the research in economics political science law and sociology that has generated considerable insight into the politics of democratic and authoritarian systems

in the wake of what has come to be called the cultural turn it is often asked how the state should respond to the different and sometimes conflicting justice claims made by its citizens and what ultimately is the purpose of justice in culturally diverse societies building upon the work of a diversity of theorists this book demonstrates that there is a distinct epistemic tradition of liberalism that can be used to critique contemporary responses to cultural diversity and their underlying principles of justice it critically examines multicultural nationalist and liberal egalitarian approaches and argues that an epistemic account of liberalism that emphasises social complexity rather than cultural diversity or homogeneity is the most appropriate response to the question of justice in modern culturally diverse societies epistemic liberalism will be of interest to students and scholars of contemporary political theory and philosophy liberal political theory and the politics of culture and identity

the oxford handbook of law and economics applies the theoretical and empirical methods of economics to the study of law volume 1 surveys methodology and concepts

encompassing the relationship between the state and the individual society and the individual the nature of freedom and the concept of the person this four volume set covers the main tenets of the liberal tradition the collection includes material from the rich background and history of classical writings and also emphasizes modern scholarship and contemporary issues fully indexed and including a new introduction by the editor this is an invaluable reference tool for both researchers and students in the field

a union list of serials commencing publication after dec 31 1949
