this is a comprehensive major reference work for our springerreference program covering clinical trials although the core of the work will focus on the design analysis and interpretation of scientific data from clinical trials a broad spectrum of clinical trial application areas will be covered in detail this is an important time to develop such a work as drug safety and efficacy emphasizes the clinical trials process because of an immense and growing international disease burden pharmaceutical and biotechnology companies continue to develop new drugs clinical trials have also become extremely globalized in the past 15 years with over 225 000 international trials ongoing at this point in time principles in

practice of clinical trials is truly an interdisciplinary that will be divided into the following areas 1 clinical trials basic perspectives 2 regulation and oversight 3 basic trial designs 4 advanced trial designs 5 analysis 6 trial publication 7 topics related specific populations and legal aspects of clinical trials the work is designed to be comprised of 175 chapters and approximately 2500 pages the work will be oriented like many of our springerreference handbooks presenting detailed and comprehensive expository chapters on broad subjects the editors are major figures in the field of clinical trials and both have written textbooks on the topic there will also be a slate of 7 8 renowned associate editors that will edit individual sections of the reference

environmental economic and social sustainability management is one of the most complex challenges facing both private and public sector organizations in recent times this book is different from other accounting books in that unlike other texts on accounting it addresses the needs of variety of users another way in which this book differs from other textbooks is that it is meant for an all accounting audiences who are interested in current issues in sustainability accounting and reporting of mining companies in ghana it provides a good starting point for anyone wanting to embark on research in this area the book is meant to be easy to read so i apologize for including references and citations if i left them all out you would not know whether what i was saying was my personal opinion or had some authoritative evidence to back it up i have tried to minimize the references though consistent with the requirements of the need to evidence statements and give credit to innovative thinkers i hope i have made it very obvious when anything is just my personal opinion the content of this book is intended for practicing accounting and finance professionals graduate students and advanced undergraduate students the social and economic context of sustainability accounting is regularly brought into discussion and accounting like all business studies are social studies it is done by people about people to people it is not just about what things people own and what those things are worth

after working for nearly three years to improve the performance of the government of flint michigan and discovering

that there was no comprehensive work on the subject of local government management to refer to brian rapp and frank m patitucci felt a personal as well as a professional need to write a book that would help them understand their successes and failures and that would help others do a better job in similar situations the result this book is unique both in its approach and in its presentation the authors establishing a conceptual framework within which to understand their subject use flint as a case city to examine the practical impact of factors affecting city government and they indicate the major standards and criteria that should be applied in evaluating that impact although they recognize that within each city there are unique conditions that make a blanket prescription impossible the authors are nevertheless convinced that many individuals both in and out of government can do something to improve the performance of their city government and they have set out to help these individuals understand in the most concrete terms possible how they might go about it

covering advantages as well as disadvantages explores how mobility meets sustainability in contemporary organizational communication

this book explores the persistence of the governance gap with respect to the human rights impacting conduct of transnational extractive corporations operating in zones of weak governance the authors launch their account with a fascinating case study of talisman energy s experience in sudan informed by their own experience as members of the 1999 canadian assessment mission to sudan harker mission drawing on new governance reflexive law and responsive law theories the authors assess legal and other non binding governance mechanisms that have emerged since that time including the un guiding principles on business and human rights they conclude that such mechanisms are incapable of systematically preventing human rights violating behaviour by transnational corporations or of assuring accountability of these actors or recompense for victims of such violations the authors contend that home state regulation while not a silver bullet has a crucial role to play in regulating such conduct they pick up where un special representative john

rugger's guiding principles on business and human rights left off and propose an innovative robust and adaptable template for strengthening the regulatory framework of home states their model draws insights from the theoretical literature leverages existing public private transnational national soft and hard regulatory tools and harnesses the specific strengths of state based governance this book will be of interest to academics policy makers students civil society and business leaders
