in 70 ce the jews were an agrarian and illiterate people living mostly in the land of israel and mesopotamia by 1492 the jewish people had become a small group of literate urbanites specializing in crafts trade moneylending and medicine in hundreds of places across the old world from seville to mangalore what caused this radical change the chosen few presents a new answer to this question by applying the lens of economic analysis to the key facts of fifteen formative centuries of jewish history

despite its general absence from the jewish liturgical cycle and its limited place in jewish practice the book of job has permeated jewish culture over the last 2 000 years job has not only had to endure the suffering described in the biblical book but the efforts of countless commentators interpreters and creative rewriters whose explanations more often than not challenged the protagonist s righteousness in order to preserve divine justice beginning with five critical essays on the specific efforts of ancient medieval and modern jewish writers to make sense of the biblical book this volume concludes with a detailed survey of the place of job in the talmud and midrashic corpus in medieval biblical commentary in ethical mystical and philosophical tracts as well as in poetry and creative writing in a wide variety of jewish languages from around the world from the second to sixteenth centuries

resonant alterities bridges the gap between sound studies and literary criticism a queer ghost story by vernon lee an occultist novel of psychic adventure by algernon blackwood a dystopian science fiction tale by j g ballard and a post traumatic short novel by don delillo are its primary objects of analysis each is explored within the context of its contemporary cultural debates on sound meanwhile all four theory enriched readings focus on intersecting and desire laden processes of meaning making knowledge production and subject formation focal points are aurally audio visually structured phenomena expressive of both collective and individual anxieties

becoming ottomans is the first book to tell the story of jewish political integration into a modern islamic empire it follows the efforts of sephardi jews from salonica to izmir to istanbul to become citizens of their state during the final half century of the ottoman empire s existence

miriam goldstein provides the first ever examination of the judeo arabic versions of toledot yeshu ty the notorious parody of the life of jesus

originating in late antiquity as well as a full edition and translation of judeo arabic ty texts from their earliest fragmentary witnesses through their early modern copies the author illuminates the historical and literary development of the judeo arabic ty texts retelling the story of this long lived polemical narrative with the critical inclusion of this significant judeo arabic material goldstein considers the function of the narrative in the religiously diverse arabic speaking milieu and traces the existence of ty in a variety of languages in later jewish near eastern story collections in this study the author transforms historical understandings of toledot yeshu and of the near eastern communities who read and transmitted the narrative

this comprehensive reference updates bistatic and multistatic radar developments since the publication of nicholas willis seminal book bistatic radar published in 1991 and revised in 1995 the book is organized into two major sections bistatic multistatic radar systems and bistatic clutter and signal processing new and recently declassified military applications are documented civil applications are detailed for the first time including commercial and scientific systems several of the most honored radar engineers of this era provide expertise in each of these applications professionals in radar and sonar will find this book a valuable resource
