worldwide social workers have many functions and roles to play in the areas of crime and criminal justice and they work with service users at both sides of criminal justice crime perpetrators crime victims and very often vulnerable people who are part of the two groups this handbook provides both a critical exploration of the roots and theoretical foundations of criminal justice social work as well as cutting edge research and practice in the field from a global and inclusive viewpoint this book is divided into six parts theoretical approaches and critical perspectives on criminal justice social work social work in the prison system children youth and criminal justice social work social work health and justice social exclusion and vulnerabilities in the criminal justice system police social work social work in courts and criminal justice social work with communities it moves away from purely legalistic approaches and regulation constraints which often leave social workers and researchers in this field feeling unheard and powerless in the face of oppressive procedures and regulations in opposition to service users human rights and social justice oriented change in line with the profession s global codes of ethics the diverse and international knowledge generated by this handbook will become a key global resource for teaching and learning about the foundations and diverse understandings practices and regulations regarding social work in the areas of crime and criminal justice and for enhancing social work s contributions and influence on these

this handbook maps the expanding field of gender and eu politics giving an overview of the fundamentals and new directions of the sub discipline and serving as a reference book for gender scholars and students at different levels interested in the eu in investigating the gendered nature of european integration and gender relations in the eu as a political system it summarizes and assesses the research on gender and the eu to this point in time identifies existing research gaps in gender and eu studies and addresses directions for future research distinguished contributors from the us the uk and continental europe and from across disciplines from political science sociology economics and law expertly inform about gender approaches and summarize the state of the art in gender and eu studies the routledge handbook of gender and eu politics provides an essential and authoritative source of information for students scholars and researchers in eu studies politics gender studies politics political theory comparative politics international relations political and gender sociology political economy european and legal studies law

the chapters presented in the annual review of comparative and international education 2023 cover extensive perspectives from around the world on topics such as trends and directions conceptual and methodological developments research to practice regional developments and diversification of the field

every year between 250 000 and 500 000 people suffer a spinal cord injury with road traffic crashes falls and violence as the three leading causes people with spinal cord injury are two to five times more likely to die prematurely they also have lower rates of school enrollment and economic

participation than people without such injuries spinal cord injury has costly consequences for the individual and society but it is preventable survivable and need not preclude good health and social inclusion ensuring an adequate medical and rehabilitation response followed by supportive services and accessible environments can help minimize the disruption to people with spinal cord injury and their families the aims of international perspectives on spinal cord injury are to assemble and summarize information on spinal cord injury in particular the epidemiology services interventions and policies that are relevant together with the lived experience of people with spinal cord injury make recommendations for actions based on this evidence that are consistent with the aspirations for people with disabilities as expressed in the convention on the rights of persons with disabilities

a title in the emerging issues in analytical chemistry series designer drugs chemistry analysis regulation toxicology epidemiology legislation of new psychoactive substances presents both an overview and a guide to techniques for designer drug analysis proliferation of the synthesis and use of designer drugs is a serious public health problem with social economic and legal implications whether abuse is studied at the population level or the individual level researchers need both background and highly detailed technical information on specific drugs and drug classes in order to combat the proliferation and highly damaging consequences of these substances author roy gerona provides a comprehensive discussion that emphasizes the potential threat to society presents the ongoing challenges confronting the various laboratory approaches to detection and identification of new chemical entities and informs the development of improved analytical solutions for use in legislation law enforcement and treatment designer drugs chemistry analysis regulation toxicology epidemiology legislation of new psychoactive substances offers an introduction to the field and a source of information on specific drugs drug effects and analytical tools to a wide audience for anyone studying or engaging in designer drug analysis analytical and medical chemists pharmacologist toxicologists and students researchers and policy makers in the fields of drug abuse medicine public health and forensics will greatly benefit from this essential text summarizes available literature and evaluates the strengths and weaknesses of analytical methods for detecting and identifying designer drugs directs the reader to sources of further reading at the conclusion of each chapter emphasizes the potential threat to society presents ongoing challenges confronting various laboratory approaches to detection and identification of new chemical entities

the relevance of contextual perspectives in religious education has been growing for the last decade it has been central to the european network for religious education through contextual approaches enreca the research network that has produced the present book several members of the network have contributed to the theoretical and empirical development of contextual approaches in different publications but for the first time this has been the focus of an entire collectively produced volume the history of the book dates back to research seminars in 2009 and 2010 and is based on the discussions in the seminar the chapters have been developed through a process of critical examination through this process we believe to have produced a coherent and also comprehensively

rich book dealing with the issue of context as a challenge and also a stimulus to religious education research and practice the chapters are presenting both empirical research and scholarly investigation into methodological and theoretical dimensions taken together we hope that this book will contribute to the further development of contextual thinking in religious education research or aim has not been to answer all questions but rather to pose questions and to complicate things in order to enrich the academic field of religion in education

this comprehensive volume covers all aspects of the revolution in prenatal diagnosis brought about by the introduction of non invasive prenatal testing nipt which primarily relies on the detection of free fetal dna circulating in maternal blood from the early stages of pregnancy the book explores the potential of nipt to provide full genome screening of the fetus and identify many common or rare disorders the counseling process as well as the limitations and pitfalls of various techniques used to perform nipt are described evaluated and critically discussed by renowned international experts the book also compares the new technology with more conventional tests preimplantation diagnosis and the invasive procedures currently in use this book will be a valuable resource for gynecologists obstetricians geneticists maternal fetal medicine specialists pathologists neonatologists reproductive medicine specialists midwives and anyone interested in prenatal genetic diagnosis
