the globalization debate has become a dominant question in many disciplines but has only tended to be covered within literary studies in the context of postcolonial literature this book focuses on reading contemporary novels in relation to globalization

this study provides an introduction to the main arguments about the globalization process it examines the theoretical and conceptual issues with substantive examples

part of the understanding public health series this book offers students and practitioners an accessible exploration of global health global health is a relatively new but rapidly expanding field as public health practitioners recognize the important challenges that global changes are posing for human health health issues are increasingly crossing national boundaries and this book explores the actors that shape global health including private companies foundations civil society and multilateral organizations and explores some of the key issues in global health illuminating the changes happening in health worldwide the book includes practical activities and applications which help to show the impact of global issues at an everyday level the issues covered include social change linked to globalization governance of global health pharmaceuticals and tobacco emerging infectious diseases climate change economy and trade health security globalisation and health 2nd edition is an ideal resource for students of public health and health policy public health practitioners and policy makers contributors joan busfield nick drager andy guise johanna hanefeld benjamin hawkins kelley lee marco liverani tony mcmichael neil pearce richard smith neil spicer carolyn stephens preslava stoeva and helen walls understanding public health is an innovative series published by open university press in collaboration with the london school of hygiene tropical medicine where it is used as a key learning resource for postgraduate programmes it provides self directed learning covering the major issues in

public health affecting low middle and high income countries series editors rosalind plowman and nicki thorogood this is a vital book which addresses the public health implications of accelerating globalisation it shows with forensic clarity the dire impact neoliberal economics and burgeoning corporate power is having on individual collective and planetary health at the same time it holds out the hope that civil society can respond to this challenge and develop governance systems which ensure that the currently predominant free market logic is reversed and people are once more put firmly before profits study it learn from it make a difference gerard hastings university of stirling uk and the open university this book provides a clear introduction to how globalization is shaping our health and the determinants of health the authors not only introduce us to the growing field of global health but also provide some concrete evidence of driving factors the key players and the impact on our daily lives it should be a reference book for public health students public health practitioners as well as for policy makers after i read this book i really realized that i live in a global village with all the consequences congratulations it is a really great book asnawi abdullah faculty of public health university muhammadiyah aceh indonesia

this book reassesses the idea of the rule of law within the present complex and increasingly internationalised environment and is the first to relate globalisation exclusively to law

this independence day edition of the world is flat 3 0 includes an exclusive preview of that used to be us how america fell behind in the world it invented and how we can come back by thomas l friedman and michael mandelbaum on sale september 5th 2011 a new edition of the phenomenal 1 bestseller one mark of a great book is that it makes you see things in a new way and mr friedman certainly succeeds in that goal the nobel laureate joseph e stiglitz wrote in the new york times reviewing the world is flat in 2005 in this new edition thomas l friedman includes fresh stories and insights to help us understand the flattening of the world weaving new information into his overall thesis and answering the questions he has been most frequently asked by parents across the country this third edition also includes two new chapters on how to be a political activist and social entrepreneur in a flat world and on the more troubling question of how to manage our reputations and privacy in a world where we are all becoming publishers and public figures the world is flat 3 0 is an essential update on globalization its opportunities for individual empowerment its achievements at lifting millions out of poverty and its drawbacks environmental social and political powerfully illuminated by the pulitzer prize winning author of the lexus and the olive tree

i can easily see this book being the go to text for students of global health it provides a comprehensive overview of globalisation s impact on health and wellbeing professor david mccoy united nations university international institute for global health kuala lumpur malaysia this book which is based on rich and diverse empirical case studies highlights the importance of understanding global health as a multi disciplinary field haim yacobi

professor of development planning bartlett development planning unit university college london uk this book is relevant for everyone that would like to have an overview of current issues of global health in the context of the globalization era ari probandari professor of public health at universitas sebelas maret indonesia global health challenges are evolving profoundly today public health practitioners must recognize the importance of global changes for human health and health policy at all levels fully revised and restructured this ground breaking title returns in its third edition to offer students and practitioners an accessible and contemporary exploration of globalization and global health the book includes critical reflection on global changes with practical learning activities which help you explore the central debates chapters cover key issues and emerging trends in global policy such as social change in the 21st century including social media and technology the emergence of global health governance and its colonial heritage trade and its implications on health policy and disease global environmental change including climate biodiversity and global policy responses infectious disease including pandemic trends and global policy responses non communicable diseases and the risks of alcohol food and tobacco governance and the state including non governmental actors the third edition of globalization and global health is an ideal resource for students of public health and health policy public health practitioners and policy makers contributors carolyn stephens benjamin hawkins marco liverani don brown chris holden aloisa katsande neil spicer preslava stoeva understanding public health is an innovative series published by open university press in collaboration with the london school of hygiene tropical medicine where it is used as a key learning resource for postgraduate programmes it provides self directed learning covering the major issues in public health affecting low middle and high income countries series editors rosalind plowman and nicki thorogood

the book deals with pros and cons of globalization and its focus extends both to the home and host countries while globalization has been beneficial it has not been without challenges for both home and host countries there are many areas where the host countries tend to benefit significantly from globalization the interface with the global economy unleashes a lot of positive energy in the economic systems of the affected countries particularly in the host country's economy the book deals with the challenge of immigration which the developed countries are facing as an offshoot of inclusiveness that comes with globalization increased debt intensity in some of the developed economies have resulted from their integration with the world economy which many countries have witnessed since early 1990s the book also delves into how the phenomenon of globalization has been leveraged by some countries more than others while us has been the leader in unleashing globalization india an effervescent democracy have gained substantially from this trend having significantly developed its professional competencies

from ancient knife money to the renminbi a fascinating history of chinese currency chinese currency and the global economy is an all encompassing study of the chinese monetary system from the historical perspective of global economy and finance from economic infrastructure to the cultural

system and from world events to the domestic scene author chen yulu describes the metamorphosis of the chinese currency and examines what is entailed in the globalization of renminbi against the background of world economic multi polarization chen yulu is an eisenhower senior visiting fellow and a fulbright senior scholar he serves concurrently as president of renmin university of china vice chairman of the china international finance association and deputy secretary general and executive director of the china society for finance and banking

behaviour at work can no longer be stereotyped as global or local modern or traditional with very little in between instead work behaviour is a complex interplay between global and local values it takes place in a glocality thus individual achievement co exists with group aspirations pay diversity takes place in a social context teamwork reflects cultural narrative and labour mobility is bound by community bias globalization and culture at work exploring their combined glocality breaks new ground by exploring such glocalities and the implications they create for managing human potential better the volume is essential reading for researchers managers culturalists and consultants of work behaviour alike

organisational behaviour 6e and its rich suite of digital educational resources leads the market in this excitingfield now in its sixth edition the engaging text has been developed to satisfy the evolving needs of learnersand academics with its offerings of contemporary theory and research real world examples learning resources and visually stimulating design contemporary and informednew and updated discussions of current theories and practice that encouragecritical analysisfeatures that reinforce the text s asia pacific focus as well as its global orientation relevant and engagingnew ob insight and ob ethics featuresnew and revised chapter opening vignettesnew end of chapter and holistic case studies help students practise their diagnosticsskills and apply ob conceptsupdated ob by the numbers features highlight interesting survey results enables effective learningorganisational behaviour 6e is recognised for its up to date content presented in a clear focused accessible and thought provoking style that enables learners to link theorieswith real world practices

this fully revised and updated textbook focuses on the major topics of globalization today these include the impact of migration relations between the northern and southern hemispheres how gender and power plays into the globalization process and the politics and economics of freedom of movement in the world two new chapters on the impact of technology on global communications and the effect of the emerging economies of india and china bring the book fully up to date further current issues such as the debate concerning environmental security natural disasters the broad spectrum between women s empowering impact in the marketplace and the continued exploitation of women in the sex and service trade are also examined eleanor kofman and gillian youngs have edited an excellent and comprehensive collection essential for both undergraduate and graduate students trying to gain an understanding of theories and practices driving globalization as we enter into the twenty first century

neither an argument for nor against globalization this book is a careful and thorough analysis of the issues of globalization and an imaginative wide ranging picture of the globalizing world it aims to both inform and enable readers to improve their own decisions about how to harness globalization the economic theory behind it the political and social consequences and the various options for nations in a globalized world case studies aid in the exploration of this largely unstoppable but governable force in the world today

globalization is irreversible and irresistible tony blair this book gives the lie to that claim economic globalization has never been an inevitable part of human history it is eminently reversible and hugely resistible greg buckman argues there are two broad approaches within the anti globalization movement one perhaps the most widely supported and influential strand today he calls the fair trade and back to bretton woods school this argues for immediate reforms of the world s trading system capital markets and global institutions notably the world bank imf and wto the other the localization school takes a more root and branch position and argues for the abolition of these institutions and outright reversal of globalization buckman explains the details of each school s outlook and proposals their weaknesses where they disagree their common ground and where they might come together in campaigns

why a return to sound money is our only hope for a true recovery and a healthy global economy money clearly illustrates that sound money is an essential foundation for a free and prosperous society and that the federal reserve s current policies are a greater threat to the economic future of the u s than government deficit spending this is an important book well worth reading john a allison president and ceo cato institute and author of the new york times bestselling the financial crisis and the free market cure few topics today are as misunderstood as the subject of money steve forbes understands money better than most heads of state do and in this provocative book he shares his vast knowledge and gives us sensible and time tested recommendations for stopping future financial meltdowns lawrence kudlow cnbc senior contributor economic and monetary policies can be difficult to master for even the savviest politicians money effectively communicates these complexities into a cohesive argument for economic recovery and preventing a new financial crisis steve forbes and elizabeth ames deliver a gripping read and an intriguing viewpoint on how to get our economy back on track greta van susteren host of on the record fox news channel few topics are as misunderstood today as the subject of money since the u s abandoned a gold linked dollar more than four decades ago the world s governments have slid into a dangerous ignorance of the fundamental monetary principles that guided the world s most successful economies for centuries today s wrong headed monetary policies are now setting the stage for a new global economic and social catastrophe that could rival the recent financial crisis and even the horrors of the 1930s coauthored by steve forbes one of the world s leading experts on finance money shows you why that doesn t need to happen and how to prevent it after reading this entertaining and hugely well informed book you will know more about money than most people in the highest government

positions today money explains why a return to sound money is absolutely essential if the u s and other nations are ever to overcome today s problems stable money steve forbes and elizabeth ames argue is the only way to a true recovery and a stable and prosperous economy today s system of fluctuating fiat money in which governments manipulate the value of the dollar and other currencies has been responsible for the biggest economic failures of recent decades including the 2008 financial crisis from whose effects we continue to suffer the obama bernanke yellen federal reserve and its unstable dollar policies are accelerating our course toward disaster the authors show in numerous convincing examples in money forbes and ames answer these crucial questions what is the difference between money and value what is real wealth how does sound money contribute to a well functioning society how have our money policy errors led to the current problems in global financial markets what can we do now to reestablish the strength of the dollar and other currencies the authors argue that the most effective way to return to a sound money policy and a healthy economy is to put the dollar back on a gold standard and they outline the several different forms a gold standard could take they also share invaluable suggestions for how to preserve our wealth and where to invest our money money is essential reading for anyone interested in this crucially important subject
