redacted examines the evolution of the ministry of deliverance tracing its roots from the gospels to the twentieth century this in depth exploration reveals the contours of jesus and the apostles ministry and how their practices influenced the fervent exorcisms of the pre nicene church igniting widespread revival from there redacted follows the decline of exorcism from the fourth to the eleventh centuries where it almost entirely disappears when it is brought back during the high middle ages the practice takes on a highly ritualized form that departs from the apostolic model the reformation saw exorcism s contentious duality between charismatic and ritual forms before they were both entirely snuffed out with protestantism yet the twentieth century witnessed its resurgence beginning at azusa st and growing within the charismatic movement redacted identifies the historical connection between deliverance and revival and makes the case that deliverance ministry is essential for revival today

this book examines the intersection and interplay between progressive era rhetoric regarding commercialized vice and the realities of prostitution in early twentieth century philadelphia arguing that any study of commercial sexual vice in a historical context is difficult given the paucity of evidence this work instead focuses on reformers construction of a cultural view of prostitution which adams argues was based more upon their perceptions of the trade than on reality itself looking at the urban core of the city progressive reformers saw vice immorality and decay but as they frequently had little face to face interaction with prostitutes plying their trade

they were forced to construct culturally fueled archetypes to explain what they believed they saw ultimately reformers in philadelphia were battling against a rhetorical creation of their own design and any study of anti vice reform in the early twentieth century tells us more about the relationship between activists and the government than it does about vice itself
