the book reflects the ideas of nineteen academic and research experts from different countries the different sections of this book deal with epidemiological and preventive concepts a demystification of cranio mandibular dysfunction clinical considerations and risk assessment of orthodontic treatment it provides an overview of the state of the art outlines the experts knowledge and their efforts to provide readers with quality content explaining new directions and emerging trends in orthodontics the book should be of great value to both orthodontic practitioners and to students in orthodontics who will find learning resources in connection with their fields of study this will help them acquire valid knowledge and excellent clinical skills

within the last thirty years there is a growing acknowledgement that prevention of catastrophic failures necessitates engagement of a large pool of expertise herein it is not excessive to seek advice from disciplines like materials science structural engineering mathematics physics reliability engineering and even economics today s engineering goals independently of size do not have the luxury of being outsideaglobalperspective survivaloftheintegratedmarketsand nancialsystems require a web of safe transportation energy production and product manufacturing it is perhaps the rst decade in engineering history that multidisciplinary proaching is not just an idea that needs to materialise but has matured beyond infancy we can witness such transition by examining engineering job descriptions and postgraduate curricula the undertaking of organising a conference to re

ect the above was not easy and de nitely not something that was brought to life without a lot of work and c st mitment the 1 conference of engineering against fracture from its conceptual day until completion was designed in a way of underlying the need of bringing all the key players on a common ground that once properly cultivated can ourish to achieve that the conference themes were numerous and despite their in principle notional differences it was apparent that the attendees established such common ground through argumentation the reader can see this from the variety of research areas re ected by the works and keynote lecturers presented

a unique collection of concise but detailed information on 10 000 animals plants fungi and algae of the british isles every species with an english common name is included the compendium is in two parts the first smaller part looks at various terms that people interested in natural history may come across the second provides information on individual species or species groups with entries on those with english common names as well as selected families orders classes etc in the case of marine organisms entries are given for intertidal and subtidal invertebrate species and generally speaking for fish species that might be observed inshore indication is often given on distribution as well as whether a species is common scarce or something in between for some species a note is made of population size and trends comments are made where appropriate on etymology both of the english name and the binomial no other natural history dictionary or cognate publication relating to the british isles is as comprehensive in taxonomic cover

can poetry act as an aesthetic amplification device akin to a microscope through which we can sense minute or nearly imperceptible phenomena such as the folding of molecules into their three dimensional shapes the transformations that make up the life cycle of a silkworm or the vaporous movements that constitute the ever shifting edges of clouds we tend to think of these subjects as reserved for science but as ada smailbegović argues twentieth and twenty first century writers have intermingled scientific methodologies with poetic form to reveal unfolding processes of change their works can be envisioned as laboratories within which the methodologies of experimentation natural historical description and taxonomic classification allow poetic language to register the rhythms and durations of material transformation poetics of liveliness moves across scales to explore the realms of molecules fibers tissues and clouds it investigates works such as christian bök s insertion of a poetic text into the dna code of living bacteria in order to generate a new poem in the shape of a protein molecule jen bervin s considerations of silk fibers and their use in biomedicine gertrude stein s examination of brain tissues in medical school and its subsequent influence on her literary taxonomies of character and lisa robertson s studies of nineteenth century meteorology and the soft architecture of clouds in their attempt to understand physical processes unfolding within lively material worlds smailbegović contends these poets have developed a distinctive materialist poetics structured as a poetic cosmology akin to lucretius s on the nature of things which begins at the atomic level and expands out to the vastness of the universe poetics of liveliness provides an innovative and surprising vision of the relationship between science and poetry

attitudes towards the conservation of old houses have changed over the past twenty years we have learnt to value the worn or imperfect original more than the glossy fake restoration but where we must replace some part of the building or refurbish we try to get the details right when it comes to soft furnishings which contributed so much to the appearance of nineteenth and early twentieth century interiors too often we abandon and attempt at historical accuracy in their design or in their methods of construction soft furnishings 1830 1930 is a guide to the use design and constructions of curtains drapery casecovers blinds

and trimmings for nineteenth and twentieth century houses elizabeth wright has drawn on may obscure sources such as nineteenth century sewing manuals contemporary novels and surviving examples to bring this comprehensive survey of soft furnishings with detailed instructions for their recreation this book provides an extensive resource for anyone needing accurate information on the history of interior decorating the furnishing of period rooms the restoration of houses or the craft of needlework
