roald dahl does not easily fit into a category as a writer contributing fiction and nonfiction to both children and adult audiences faced with this ambiguity the

literary community has mostly ignored his contributions since he is mainly viewed as a children's author late in life dahl created two autobiographies *Boy Tales of Childhood* 1984 and *Going Solo* 1986 as venues for sharing his many embellished personal stories this thesis focuses on *Going Solo* the second of these two books which explores dahl's three year departure from england including his enlistment in the royal air force during world war ii during this same time period he wrote 126 personal letters and telegrams to his family he had experienced much change in his life during the nearly fifty year gap from when the letters were written to when he crafted *Going Solo* for a more general audience by comparing this personal correspondence to *Going Solo* it is possible to see how memory and self selection permitted the author to craft a personal narrative interested as much in reconstructing his public persona as recounting true events from his past this thesis asserts that dahl does not rely exclusively on his letters when reconstructing the narrative and instead inserts himself into a larger historical narrative dahl used *Going Solo* to point to the locations where his personal narrative collides with history and emotions this is particularly true in the last half of the book where he comes to rely on historical touchstones it is full of places and people which evoke memories and strong feelings for him dahl also relied on techniques and motifs found in folktales features that make his work of particular interest to folklorists the final chapter offers an examination of these techniques used in the *BFG* dahl's most autobiographical work of children's literature written only four years prior to *Going Solo* by paying closer attention to his methodology we gain a clearer understanding of how folklore functions in the development of literary personal narrative

roald dahl is one of the world's best loved authors more than twenty years after his death his books are still highly popular with children and have inspired numerous feature films yet he remains a controversial figure this volume the first collection of academic essays ever to be devoted to dahl's work brings together a team of well known scholars of children's literature to explore the man his books for children and his complex attitudes towards various key subjects including essays on education crime dahl's humour his long term collaboration with the artist quentin blake and film adaptations this fascinating collection offers a unique insight into the writer and his world

In 1918 the RAF was established as the world's first independent air force to mark the 100th anniversary of its creation. Penguin are publishing the centenary collection, a series of six classic books highlighting the skill, heroism, esprit de corps that have characterised the Royal Air Force throughout its first century. They didn't think for one moment that they would find anything but a burnt-out fuselage and a charred skeleton, and they were apparently astounded when they came upon my still-breathing body lying in the sand nearby. In 1938 Roald Dahl was fresh out of school and bound for his first job in Africa, hoping to find adventure far from home. However, he got far more excitement than he bargained for when the outbreak of the Second World War led him to join the RAF. His account of his experiences in Africa, crashing a plane in the Western Desert, rescue and recovery from his horrific injuries in Alexandria, and many other daring deeds recreates a world as bizarre and unnerving as any he wrote about in his fiction.
