the study of language in written texts and transcripts of speech is greatly helped by a student's ability to identify and describe those prominent features of the grammar which make one variety of English different from another. A course book in English grammar looks at many of the problems encountered by students and encourages them to find their own answers and to assess hypotheses about grammatical description. There are activities at each step using authentic written and spoken data. Using real texts avoids the faking of evidence to be found in some traditional grammar books and interesting problems of analysis that arise in such texts are a source of useful discussion. The book has been thoroughly revised and expanded for this second edition which contains additional chapters and material. A new opening chapter discusses the concept of grammatically correct English and the differences between descriptive, prescriptive and proscriptive approaches to the writing of grammar books. The book is a systematic description of standard English and examples of contemporary spoken dialectal grammar are introduced and analysed to illustrate the differences between standard and nonstandard usage. A course book in English grammar will prove invaluable to all students of English language.

This book is written as per needs of the agents seeking to work as general insurance agents written on the syllabus prescribed under IC 38 General Insurance. It's the best bet for the candidates.

This practical resource book showcases both the theory and practical application for teacher educators in diverse contexts, bringing a global Englishes perspective into their teacher education courses both at pre and in-service levels. The recent global Englishes paradigm serves as a promising response to the complexity of identity, interaction, use and instruction surrounding the English language. It is increasingly important to enhance teachers' knowledge base, their specialized knowledge, skills, competencies and commitments vis-à-vis the changing needs of English language teaching. The chapters in the book provide accessible theoretical orientation to different aspects of the global Englishes paradigm, from instructional materials to language assessment, and are complemented by a range of practical applications that promote teacher development. The volume is recommended as a viable professional development resource for teacher educators who are looking for activities and resources in preparing teachers for diverse teaching contexts, realities, affordances and constraints.

La presente obra pretende abarcar desde diferentes perspectivas numerosas preocupaciones que conciernen al sistema educativo actual. Para ello, las aportaciones científicas que se presentan a continuación abordan a través de la pesquisa y la praxis numerosas cuestiones que se han englobado en un total de diez bloques temáticos. En el primer bloque se encuentran aportaciones que responden al tratamiento de las diferentes competencias docentes que debe reunir el presente y futuro educador.
