the routledge handbook of gender and environment gathers together state of the art theoretical reflections and empirical research from leading researchers and practitioners working in this transdisciplinary and transnational academic field over the course of the book these contributors provide critical analyses of the gender dimensions of a wide range of timely and challenging topics from sustainable development and climate change politics to queer ecology and interspecies ethics in the so called anthropocene presenting a comprehensive overview of the development of the field from early political critiques of the male domination of women and nature in the 1980s to the sophisticated intersectional and inclusive analyses of the present the volume is divided into four parts part i foundations part ii approaches part iii politics policy and practice part iv futures comprising chapters written by forty contributors with different perspectives and working in a wide range of research contexts around the world this handbook will serve as a vital resource for scholars students and practitioners in environmental studies gender studies human geography and the environmental humanities and social sciences more broadly

this book explores the role of institutions in economic growth

looking in particular at specific asian countries and at particular cities within those countries it considers a wide range of factors besides institutions including the law cultural factors and overall government arrangements the differences between the countries studied are highlighted and the impact of these differences assessed the impact of english common law on arrangements in hong kong singapore and malaysia sharia law in malaysia the differing lengths of time of colonial rule the extent to which chinese family businesses control an economy also studied are the degree to which the law is effectively applied and a range of other social economic and cultural factors the book s conclusions as to which factors have the greatest impact will be of considerable interest to economists of asia and those interested in economic growth more widely

the past decade has seen increased attention to cost effectiveness and benefit cost analysis in education as administrators are being asked to accomplish more with the same or even fewer resources philanthropists are keen to calculate their return on investment in social programs and the general public is increasingly scrutinizing how resources are allocated to schools and colleges this text titled cost effectiveness analysis in its previous editions is the only full length book to provide readers with the step by step methods they need to plan and implement a benefit cost analysis in education the authors examine a range of issues including how to identify measure and distribute costs how to measure effectiveness utility and benefits and how to incorporate cost evaluations into the decision making process the updates to the third edition reflect the considerable methodological development in the evaluation literature and the greater empiricism practiced by education researchers to help readers learn to apply more advanced methods to their own analyses sage congratulates author henry m levin winner of the 2017 aera distinguished contributions to research in education award

scientific study from the year 2017 in the subject tourism miscellaneous university of kelaniya course economic modelling language english abstract measuring the contribution of tourism to a national economy has always been a frustrating exercise tourism does not have specific products it represents the sum of expenditure by travellers for wide range of

products it is not possible to identify tourism as a single industry in the national accounts its value to the economy is not readily revealed as a result of the absence of tourism in official economic statistics there is often an on going battle to establish tourism credibility as an economic activity and generator of income in the economy as a result a significant volume of tourism research over the past few decades have focussed on the development and use of a variety of economic techniques aimed at quantifying the effects of tourism on an economy in conventional literature has proven that computable general equilibrium cge modelling is the best applied tool addressing and analysing tourism related issues in an economy the paper provided a complete description of the theoretical structure of the cge tourism including all equations and variables by using relevant excerpts for different blocks of equations in the tablo file associated with the gempack software used to operationalise the model the incorporation of tourism using the dummy sector approach into an orani type cge model as an extension and can be considered as the main contribution of this study to the cge modelling literature for an economy this is a clear departure from the traditional methods used for tourism modelling in an economy this model can be used to simulate the economic impact of the tourism boom in an economy

presenting principles of economics this textbook aims to instill economic sensibility in the student it emphasizes the intellectual and historical context to which the economic models are applied

this annual collection of key economic and statistical data is essential reading for economists planners and policy makers working on issues of concern to small states this volume covers overseas development assistance and post 2015 financing for development in small states and contains 17 tables covering development indicators

cultural heritage which includes archaeology is recognized as serving an increasingly important role in european societal development but what exactly is the relevance of archaeology to present day citizens imprint of action investigates the sociocultural impact of archaeology through public activities these activities provide an ideal setting for research as they represent a structured point of encounter between the public and archaeological heritage in analysing them aspects of

people's connections to the past are revealed as such this research forms an integral part of the research project 2013-2018 as a basis for analysis survey data from three large scale case studies domunder netherlands you r archaeology cross europe and invisible monuments greece was used the analysis and interpretation of the case studies is based on a newly created methodological framework which finds its roots in the broader culture and arts sector results shows that activities encourage participation and interaction which engenders sociocultural impacts on participants most notably in knowledge increase skill development social relations and happiness imprint of action is the first large scale study focussing entirely on sociocultural impact in archaeology and as such is explorative in nature it provides unique insights into the workings of interaction and participation in archaeological events and openly shares qualitative and quantitative research data with the expanding field in doing so imprint of action lies the foundations for further analysis of the societal impact of both large and small scale heritage projects and identifies the incontestable values of archaeological heritage to the public

an insider's look at the sec and the changes needed to strengthen the u.s. financial system in 2008 americans were reeling from the devastating financial crisis that caused the great recession there were searing questions about how the crisis was allowed to happen and calls for immediate reform from capital hill the news media and the general public multiple scandals sent real fear through the investing community and brought unprecedented heat on the securities and exchange commission sec there was little doubt that the sec had to fix rules that permitted bad behavior shake off decades of complacency and enforce existing laws wall street lawyer norm champ spent nearly 20 years dealing with the sec on behalf of his clients and as an industry representative working to educate the agency about hedge funds believing he could help reform the deeply flawed agency champ left his career in the private sector and joined the sec as director of the division of investment management he became a key player in stabilizing trillions of dollars of investor capital while reenergizing the sec's culture and management in going public champ presents a rare insider's look at how the sec operates and explains exactly how the agency impacts the overall economic health of the country he examines the inner workings

of hedge funds economic policy and politics investing and inefficient and frustrating federal agencies engrossing and important this book offers critical recommendations for policy changes that will create healthy free functioning markets and help americans better prepare for the inevitable next crisis
