when businessman john timpson started his retailing career in 1960 there were no supermarkets no out of town shopping centres and not even a hint of internet shopping the british high street was full of made to measure tailors and traditional grocers among the household names were mac fisheries dewhurst john collier and timothy whites taylors in this enjoyable new book timpson shows how successive generations of forward thinking shopkeepers and inspirational entrepreneurs have led the major retailers through a period of rapid change people such as ken morrison ralph halpern terence conran and anita roddick without whom our high streets would have looked very different this unique survey from a man who knows a few things about success in retail paints a compelling personal and vivid picture of how shops have changed over the last 100 years and reveals who timpson thinks has had the biggest influence on the shape of shopping in the retail revolution that we have witnessed since the 1970s

this book examines a new trend affecting cartography and geographic information science presenting the work of over 30 authors from 16 different countries the book provides an overview of current research in the new area of internet cartography chapters deal with the growth of this form of map distribution uses in education privacy issues and technical aspects from the point of view of the map provider

including internet protocols such as xml and svg many see the internet as a revolution for cartography previously tied to the medium of paper and expensive large format color print technology maps had a limited distribution and use the internet made it possible to not only distribute maps to a much larger audience but also to incorporate interaction and animation in the display maps have also become timelier with some maps of traffic and weather being updated every few minutes in addition it is now possible to access maps from servers throughout the world finally the internet has made historic maps available for viewing to the public that were previously only available in map libraries with limited access

in the new millennium what secrets lay beyond the far reaches of the universe what mysteries belie the truths we once held to be self evident the world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art now in the year s best science fiction thirty second annual collection the very best sf authors explore ideas of a new world this venerable collection brings together award winning authors and masters of the field such as robert reed alastair reynolds damien broderick elizabeth bear paul mcauley and john barnes and with an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre
