berens book is a voluminous look at both ancient mythology and some of the heroic figures of greek and roman history from the preface the want of an interesting work on greek and roman mythology suitable for the requirements of both boys and girls has long been recognized by the principals of our advanced schools the study of the classics themselves even where the attainments of the pupil have rendered this feasible has not been found altogether successful in giving to the student a clear and succinct idea of the religious beliefs of the ancients and it has been suggested that a work which would so deal with the subject as to render it at once interesting and instructive would be hailed as a valuable introduction to the study of classic authors and would be found to assist materially the labours of both master and pupil in endeavouring to supply this want i have sought to place before the reader a lifelike picture of the deities of classical times as they were conceived and worshipped by the

ancients themselves and thereby to awaken in the minds of young students a desire to become more intimately acquainted with the noble productions of classical antiquity it has been my aim to render the legends which form the second portion of the work a picture as it were of old greek life its customs its superstitions and its princely hospitalities for which reason they are given at somewhat greater length than is usual in works of the kind in a chapter devoted to the purpose some interesting particulars have been collected respecting the public worship of the ancient greeks and romans more especially of the former to which is subjoined an account of their principal festivals i may add that no pains have been spared in order that without passing over details the omission of which would have marred the completeness of the work not a single passage should be found which could possibly offend the most scrupulous delicacy and also that i have purposely treated the subject with that reverence which i consider due to every religious system however erroneous it is hardly necessary to dwell upon the importance of the study of mythology our poems our novels and even our daily journals teem with classical allusions nor can a visit to our art galleries and museums be fully enjoyed without something more than a mere superficial knowledge of a subject which has in all ages inspired painters sculptors and poets it therefore only remains for me to express a hope that my little work may prove useful not only to teachers and scholars but also to a large class of general readers who in whiling away a leisure hour may derive some pleasure and profit from its perusal

excerpt from greek and roman mythology while familiarity with classical mythology is generally recognized as essential to the understanding of literature and art and to the preservation of a great and valuable part of our artistic and spiritual heritage the method of assuring such a familiarity to the rising generation differs in different schools in many the stories of the gods and heroes are read in the lower grades from one or

another of the children's books based on the myths and any further knowledge of the subject depends upon the study of Vergil and other Latin or Greek writers and on the use of reference books in connection with reading in English literature in many schools. However, experience has proved that as even the most elementary knowledge of mythology gained in childhood cannot be presupposed and as the knowledge gained from the occasional use of reference books is unsubstantial and unsatisfactory, a systematic course in mythology for students of high school age is necessary.
