environmental harms exert a significant toll and pose substantial economic costs on societies around the world although such

harm have been studied from both legal and social science perspectives these disciplinary specific approaches are not on their own fully able to address the complexity of these environmental challenges many legal approaches for example are limited by their inattention to the motivations behind environmental offences whereas many social science approaches are hindered by an insufficient grounding in current legislative frameworks this edited collection constitutes a pioneering attempt to overcome these limitations by uniting legal and social science perspectives together the book s contributors forge an innovative socio legal approach to more effectively respond to and to prevent environmental harms around the world integrating theoretical and empirical work the book presents carefully selected illustrations of how legal and social science scholarship can be brought together to improve policies the various chapters examine how a socio legal approach can ultimately lead to a more comprehensive understanding of environmental harms as well as to innovative and effective responses to such environmental offences

engaging with one of the most consequential issues of our time this book offers a comprehensive analysis of responsibility for environmental damage under international law in doing so it considers the responsibility liability and accountability of state and non state actors for harm caused to the environment and non compliance with environmental norms across a wide range of multilateral regulatory frameworks

over the last two decades green criminology has emerged as a unique area of study bringing together criminologists and sociologists from a wide range of research backgrounds and varying theoretical orientations it spans the micro to the macro from individual level environmental crimes and victimization to business corporate violations and state transgressions there have been few attempts however to explicitly or implicitly integrate cultural criminology into green criminology or vice versa this book moves towards articulating a green cultural criminological perspective brisman and south examine existing overlapping research and offer a platform to support future excursions by green criminologists into cultural criminology s concern with media images and representations consumerism and consumption and resistance at the same time they offer an invitation to cultural criminologists to adopt a green view of the consumption landscape and the growth and depictions of environmental harms green cultural criminology is aimed at students academics criminologists and sociologists with an interest in green criminology and cultural criminology two of the most exciting new areas in criminology today

with contributions from leading authorities this is the definitive guide to current criminological theory research and policy the oxford handbook of criminology provides a comprehensive collection of chapters covering the core and emerging topics studied on criminology courses indispensable to students academics and professionals alike 43 chapters written by over 85 leading academics exploring relevant theory cutting edge research policy developments and current debates encouraging students to appreciate the diverse and interdisciplinary nature of criminological discourse includes detailed references to aid further research chapters updated to reflect recent cases statistics and scholarship as well as significant current events such as covid 19 and social

justice movements new chapters added presenting research on topical issues including victimology hate crime desistance cybercrime atrocity crimes convict criminology security and smart cities prison abolitionism comparative criminology sex offending and network criminology digital formats and resourcesthe seventh edition is available for students and institutions to purchase in a variety of formats and is supported by online resources the e book offers a mobile experience and convenient access along with functionality tools navigation features and links that offer extra learning support oxfordtextbooks co uk ebooks the accompanying online resources include essay questions and links to useful websites for each chapter along with guidance on answering essay questions and access to chapters from previous editions

this book develops a groundbreaking novel approach to examining ethical consumer behaviour from the perspective of evolutionary theory illustrating the deeply rooted potentials and limits within society for reducing environmental harm

the routledge international handbook of green criminology was the first comprehensive and international anthology dedicated to green criminology it presented green criminology to an international audience described the state of the field offered a description of a range of environmental issues of regional and global importance and argued for continued criminological attention to environmental crimes and harms setting an agenda for further study in the six years since its publication the field has continued to grow and thrive this revised and expanded second edition of the handbook reflects new methodological orientations new locations of study such as asia canada and south america and new responses to environmental harms while a number of the original chapters have been revised the second edition offers a range of fresh chapters covering new and emerging areas of study such as conservation criminology eco feminism environmental victimology fracking migration and eco rights and e waste this handbook continues to define and capture the field of green criminology and is essential reading for students and researchers engaged in green crime and environmental harm
