what makes the book of illumination stand out among other philosophical and or religious titles is its precision to math definition and it's deciphering of prophecy there truly is no

book like it as it combines every major religion history prophecy pop culture as well as the occult into one comprehensive record it also with the use of kabbalah and sacred geometry animates the lives of past mythological deities and composites their lives with stars that are living today the revelation given within the book of illumination is in direct alignment with new age prophecy as well as the resurrection spoken of by jesus this resurrection is validated by hinduism the world's oldest religion which is also the largest religion in the world that openly acknowledges and promotes reincarnation reincarnation after reading the book of illumination becomes fully realized it is no longer a matter of theory as again the book proves with mathematics and sacred geometry the existences of ancient celestial beings of folklore and mythology who walk the earth today in the flesh

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

excerpt from the art of illumination since the first edition of this book was published profound and revolutionary changes have taken place in the available materials of artificial illumination among electrical illuminants entirely new types of are light have come into general use and the carbon incandescent lamp is being rapidly pushed into obsolescence by the metallic filament lamps which now dominate electric lighting practice in the field of gas lighting the inverted mantle burners of both large and small capacity and the high pressure mantle burners have pushed their way to the front and radically changed the conditions of economy which previously existed auxiliaries of every kind and particularly shades and reflectors of greatly improved types have been so multiplied as to meet almost every possible requirement all these considerations have made necessary a very complete revision of the parts of this volume dealing with practical lighting moreover the art of illuminating engineering has been enriched by a large amount of valuable experience within the past few years and its principles are now founded on a more secure scientific basis the general principles of the art however remain the same and its importance in practical life is at last

being adequately appreciated about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
