in 1949 the year of the berlin airlift and the founding of the two post war german states elisabeth kusian nurse black marketer morphine and methamphetamine addict and pathological liar garroted and dismembered two people in a mini crime spree her actions both fascinated and terrified the public how could this woman a nurse commit such a violent act west berlin detectives attempted to run an efficient investigation under new democratic rules their east berlin counterparts newly structured along soviet lines employed their restricted resources to solve the case and prove the advantages of their socialist system both tried to use the investigation to demonstrate their distance from the third reich and build a brighter future based on the true story of elisabeth kusian death in the rubble explores shifting identities evolving gender expectations post fascist politics and norms and the violence lurking beneath a city struggling to redefine itself

an examination of the final period of nazi rule in germany s eastern provinces at the end of the second world war it outlines the wartime role of this region and assesses the impact of nazi popular mobilisation initiatives during the closing

months of the conflict

from intimate portrayals of ordinary germans and nazi leaders to immersive spectacles of war and defeat this study argues that since 1990 german film has focused on portraying the nazi past from within

from the preeminent hitler biographer a fascinating and original exploration of how the third reich was willing and able to fight to the bitter end of world war ii countless books have been written about why nazi germany lost world war ii yet remarkably little attention has been paid to the equally vital question of how and why it was able to hold out as long as it did the third reich did not surrender until germany had been left in ruins and almost completely occupied even in the near apocalyptic final months when the war was plainly lost the nazis refused to sue for peace historically this is extremely rare drawing on original testimony from ordinary germans and arch nazis alike award winning historian ian kershaw explores this fascinating question in a gripping and focused narrative that begins with the failed bomb plot in july 1944 and ends with the german capitulation in may 1945 hitler desperate to avoid a repeat of the disgraceful german surrender in 1918 was of course critical to the third reich s fanatical determination but his power was sustained only because those below him were unable or unwilling to challenge it even as the military situation grew increasingly hopeless wehrmacht generals fought on their orders largely obeyed and the regime continued its ruthless persecution of jews prisoners and foreign workers beneath the hail of allied bombing german society maintained some semblance of normalcy in the very last months of the war the berlin philharmonic even performed on april 12 1945 less than three weeks before hitler s suicide as kershaw shows the structure of hitler s charismatic rule created a powerful negative bond between him and the nazi leadership they had no future without him and so their fates were inextricably tied terror also helped the third reich maintain its grip on power as the regime began to wage war not only on its ideologically defined enemies but also on the german people themselves yet even as each month brought fresh horrors for civilians popular support for the regime remained linked to a patriotic support of germany and a terrible fear of the enemy closing in based on prodigious new research kershaw s the end is a harrowing yet enthralling portrait of the third reich in its last desperate gasps

in 2015 germany agreed to accept a million syrian refugees the country had become an epicenter of global migration and one of europe s most diverse countries but was this influx of migration new to germany in this highly readable volume jan plamper charts the groups and waves of post 1945 mobility to germany we are all migrants is the first narrative history of multicultural germany told through life stories it explores the experiences of the 12 5 million german expellees from eastern europe who arrived at the end of the second world war the 14 million guest workers from italy and turkey who turned west germany into an economic powerhouse the gdr s vietnamese labor migrants and the 2 3 million germans and 230 000 jews who came from the soviet union after 1987 without minimizing racism we are all migrants shows that immigration is a success story and that germany has been and is one of the most fascinating laboratories on our planet in which multiple ways of belonging and ethnic national and supranational identities are hotly debated and messily lived
