create high quality attention getting powerpoint presentations quickly and easily with this  
solutions packed guide make slides and effectively convey your message through text graphics  
and multimedia for show stopping presentations

imagine if a student spent as much time managing information as celebrities doted on dieting while eating too much food may be the basis of a moral panic about obesity excessive information is rarely discussed as a crisis of a similar scale obviously plentiful and high quality food is not a problem if eating is balanced with exercise but without the skills of media and information literacy students and citizens wade through low quality online information that fills their day yet does not enable intellectual challenge imagination and questioning digital dieting from information obesity to intellectual fitness probes the social political and academic difficulties in managing large quantities of low quality information but this book does not diagnose a crisis instead digital dieting provides strategies to develop intellectual fitness that sorts the important from the irrelevant and the remarkable from the banal in april 2010 and for the first time facebook received more independent visitors than google increasingly there is a desire to share rather than search but what is the impact of such a change on higher education if students complain that the reading is too hard then one response is to make it easier if students complain that assignments are too difficult then one way to manage this challenge is to make the assignments simpler both are passive responses that damage the calibre of education and universities in the long term digital dieting from information obesity to intellectual fitness provides active conscious careful and applicable strategies to move students and citizens from searching to researching sharing to thinking and shopping to reading

although a growing body of research demonstrates the need for education to adapt to the needs of the net generation research also shows that traditional teaching methods continue to dominate the classroom to stay effective higher education must adapt to the needs of this unique generation of digital natives who grew up with computer technologies and social media teaching learning and the net generation concepts and tools for reaching digital learners provides pedagogical resources for understanding digital learners and effectively teaching and learning with today s generation of digital natives this book creates a much needed resource that moves beyond traditional disciplinary and geographical boundaries bridges theories and practice and addresses emerging issues in technology and pedagogy

this was written for teachers who want to use powerpoint in the classroom to enhance your presentations teach your students how to use the application and create interactive educational projects

it is a commonplace in educational policy and theory to claim that digital technology has transformed the university the nature of learning and even the essence of what it means to be a scholar or a student however these claims have not always been based on strong research

evidence what are students and scholars actually doing in the day to day life of the digital university this book examines in detail how the world of the digital interacts with texts artefacts devices and humans in the contemporary university setting weaving together perspectives from a range of thinkers and disciplinary sources lesley gourlay draws on ideas from posthuman and new materialist theory in particular to open up our understanding about how digital knowledge practices operate she proposes that digital engagement in the university should not be regarded as virtual or disembodied but instead may be understood as a complex set of entanglements of the body texts and material artefacts making a case that agency and the ways in which knowledge emerges should be regarded as more than human

public speaking for criminal justice professionals a manner of speaking is a one of a kind public speaking guide specifically written for criminal justice professionals written by a criminal justice professional author thomas mauriello has worked his entire professional career both as a practitioner and as an educator in the fields of criminal justice and forensic science this book outlines the public speaking skills he has learned used and taught to thousands of criminal justice forensic science security and counterintelligence professionals over the years the book can either be read from cover to cover to fine tune the reader s existing oral communication skills or read in a modular fashion as a reference guide to focus on certain skills and techniques a list of over 55 proven effective presentation tools will be listed discussed and demonstrated throughout the book using illustrated criminal justice and forensic sciences topic examples contrary to popular believe simply knowing your subject or being an expert in the subject does not guarantee a successful presentation aristotle who many recognize as the father of public speaking and forensic debate said it best when he declared it is not enough to know what to say one must know how to say it this guide focuses on technique and the recognition that a speaker must have of both the subject and the listener the purpose is to improve readers skill level and ability to engage and thereby inform the listener whether preparing to speak to one person or one thousand people public speaking for criminal justice professionals provides specific techniques for professionals to speaking with confidence and present effective engaging presentations
