in view of the multifaceted challenge of transforming towards inclusive and sustainable food systems scholars have drawn attention to diverse economies of food such as food coops community supported agriculture urban community gardens or fair trade diverse economies of food have been labeled in various ways the notion of alternative agro food networks afn has gained the broadest appeal in this regard however this notion and similar ones have been criticized on a conceptual level and the assumption that diverse economies of food may substantially contribute to the sustainable transformation of food systems has been questioned on theoretical methodological and political grounds although food democracy is recurrently mentioned in relation to diverse economies of food a proper operationalization of this concept is largely missing as well as robust quantifications of the sustainability implications of those by focusing on food democracy as forms of joint decision making by food producers consumers public authorities and stakeholders on various scales diverse economies of food can be clarified conceptually and the environmental impacts quantified as well as trade offs and synergies assessed this allows us to investigate more precisely the possible sustainability and transformative impacts of diverse economies of food

dalton combines the scholarly literature on public law and judicial impact with recent studies of policy implementation at the state level he emphasizes the underlying constitutional organizational psychological and political factors that shape public policy outcomes arguing that a sound grasp of these factors can lead to an understanding of the gap between theory and practice in democratic politics he examines the historical development and revision of the u s supreme court civil liberties rulings from the 1960s to the early 1980s as well as executive and congressional policy to regulate criminal records privacy he also underscores the importance of the intergovernmental context in which state officials act as both leaders and intermediaries in the implementation of national policies dalton then

combines these elements of analysis into a general theory of legitimation in order to render the significance of criminal justice policy for the american political system understandable as a whole
