using archival material and oral testimony collected during workshops in nunavut between 1996 and 2008 frédéric laugrand and jarich oosten provide a nuanced look at inuit religion offering a strong counter narrative to the idea that traditional inuit culture declined post contact they show that setting up a dichotomy between a past identified with traditional culture and a present involving christianity obscures the continuity and dynamics of inuit society which has long borrowed and adapted outside elements they argue that both shamanism and christianity are continually changing in the arctic and ideas of transformation and transition are necessary to understand both how the ideology of a hunting society shaped inuit christian cosmology and how christianity changed inuit shamanic traditions

muslim christian relations were an important element of the social and political dynamics of indonesia and an ever sensitive subject of government policy during the new order period 1966 1998 tense relations and mutual suspicions between indonesia s muslim majority and its significant christian minority were reflected in christian fear of muslim efforts to turn the country into an islamic state and muslim anxieties about domestic christian missionary activities at first the regime made heavyhanded efforts to contain inter religious conflict but its attitude towards vocal muslim groups shifted from suppression to accommodation state and private institutions organized talks between the two communities but they proved ineffective at improving muslim christian relations these socio political developments in turn contributed to violence coloured by islamic and christian sentiments after the fall of the regime

whether or not you re reading this book before during or after a christmas season i wish you a merry christmas in advance or balance as the case may be i ll be quick to add that you read it with an open mind for only then will you understand why we celebrate christmas and why you should also partake in this globally celebrated but lowly calibrated celebration while this book is specifically to enlighten those who oppose the celebration of this all important season those who have no qualms about celebrating it but don t celebrate it as well as those who celebrate it will equally find it a veritable

resource of knowledge therefore this book is for everyone first of all and most importantly those who oppose the celebration of christmas second it s for those who have no problems with the celebration but don t celebrate it this class of people are those i call the neutrals they re not against the celebration and don t celebrate it and thirdly those who celebrate it in this category however i find two sub categories those who celebrate christmas with understanding and those who celebrate it without understanding its significance thus this book is for everyone who desires to learn more and to know more about christmas to achieve my aim of effectively reaching everyone in the three groups and sub groups without erecting religious walls or creating cultural cum traditional biases i consciously avoided positions and explanations that have strong religious connotations rather i focused on logical perspectives and reasoning to adduce my points i m deliberate in doing this so as not to sound religious at all i took the path of appealing to sound reasoning and logical thinking which everyone including irreligious folks can appreciate and identify with for instance i wrote in chapter 1 that far beyond the decorations of twinkling lights cards gifts and carols christmas has a spiritual dimension only very few folks are privy to i contended in chapter 2 that the focus shouldn t be on the season alone but also on the reason the reason for the season jesus he s the reason for the season to ignore or underrate him and what he represents in our celebrations is to lose the spiritual favor and savor christmas should afford in chapter 3 i challenged the opposition to the celebration of christmas based on the correctness of the 25th december globally celebrated date my contention on the correctness of the date is that attitude shouldn t be sacrificed on the slaughter slap of exactitude our attitude to and during the christmas celebration is more important than the exactitude of the date of the celebration in challenging the opposition against christmas based on its pagan origin in chapter 4 i posited that origin doesn t determine originality the iniquitous patterns of incest murder and adultery in the family line of jesus should have disqualified him from being the messiah if origin were the determining factor in one s life even his low profile birth in the manger should have equally tainted his originality but that wasn t the case my position in chapter 5 is that christmas being the birthday of jesus christ is worth celebrating since jesus as a person is worth celebrating christmas his birthday is equally worth celebrating i esteem it to be an act of wisdom to celebrate a person of a lofty

pedigree and high spiritual profile like Jesus in chapter 6 I gave a prescription as to how best to celebrate Christmas to me the celebration of Christmas is a must but it must be a worthy and godly Christmas celebration focused on virtues such as consecration more than on the celebration on spirituality instead of just the festivity the book will make a good read if you read it to learn more about Christmas and not just to criticize it enjoy a happy reading experience
