The present book is the most authentic presentation of contemporary concepts, tools, and application of human resource management. All the latest developments in the arena have been incorporated. It remarkably differs from the books on the subject written in a conventional manner as it does not attempt to rediscover personnel management under the garb of human resource management. A separate chapter on strategic human resource management is the uniqueness of this book. An attempt has been made to provide for the ambitious students and the inquisitive scholars a comfortable, genuine, and firm grasp of key concepts for practical application of human resource management techniques in actual business organisations. Review questions have been provided at the end of each section to help the students prepare well for the examination. In its description of the entire conceptual framework of human resource management, care has been taken to avoid jargons which usually obscure a work of this kind. Another speciality of the book is that it can be used as a textbook by students and as a handbook by HR managers and practitioners. It will be highly useful for the students of MBA, MHRM, MPM, MLW, MSW in HRM and M.Com courses of all Indian universities.
