a fire fighter's ability to recognize an incident involving hazardous materials or weapons of mass destruction (WMD) is critical they must possess the knowledge required to identify the presence of hazardous materials and WMD and have an understanding of what their role is within the response plan. The third edition of hazardous materials awareness and operations will provide fire fighters and first responders with these skills and enable them to keep themselves and others safe while mitigating these potentially deadly incidents. Hazardous materials awareness and operations third edition has been completely updated and correlated to meet and exceed the competencies in the newly released 2017 edition of NFPA 1072 standard for hazardous materials weapons of mass destruction emergency response personnel professional qualifications. A detailed crosswalk has also been developed to help you correlate the JPR's from the 2018 edition of NFPA 472 standard for competence of responders to hazardous materials weapons of mass destruction incidents which can be found as an appendix. The structure of the third edition has also been enhanced to accommodate your exact needs with three distinct sections: the awareness section encompasses two chapters for awareness level personnel, the operations section covers five chapters for operational responders, and the mission specific section concludes with eight chapters.

The fourth edition of trench rescue principles and practice to NFPA 1006 and 1670 meets and exceeds the job performance requirements in chapter 7 of NFPA 1006 standard for technical rescuer professional qualifications and chapter 11 of NFPA 1670 standard on operations and training for technical search and rescue incidents. The fourth edition provides a comprehensive introduction to trench rescue focusing on the knowledge and skills required to effectively perform trench rescues in a number of environments. The resource is divided by the three levels of rescuer: awareness, operations, and technician.
