a space shuttle flight crew discovers that the earth they ve returned to is not the home they
left behind in the first book of this emotional mind bending thriller series from the creator of
the hit netflix show manifest and the bestselling author of the warehouse if the martian and
the twilight zone had a baby it would be detour a thriller that messes with your head as you
scramble to piece together what s really going on steve netter best thriller books ryan crane
wasn t looking for trouble just a cup of coffee but when this cop spots a gunman emerging
from an unmarked van he leaps into action and unknowingly saves john ward a billionaire
with presidential aspirations from an assassination attempt as thanks for ryan s quick thinking
ward offers him the chance of a lifetime to join a group of lucky civilians chosen to
accompany three veteran astronauts on the first manned mission to saturn s moon titan a
devoted family man ryan is reluctant to leave on this two year expedition yet with the
encouragement of his loving wife and an exorbitant paycheck guaranteeing lifetime care for
their disabled son he crews up and ventures into a new frontier but as the ship is circling titan
it is rocked by an unexplained series of explosions the crew works together to get back on
course and they return to earth as heroes when the fanfare dies down ryan and his fellow
astronauts notice that things are different some changes are good such as lavish upgrades to
their homes but others are more disconcerting before the group can connect mysterious

figures start tailing them and their communications are scrambled separated and suspicious the crew must uncover the truth and decide how far they re willing to go to return to their normal lives just when their space adventure seemingly ends it shockingly begins

an instant new york times bestseller from wharton professor and author of the popular one useful thing substack newsletter ethan mollick comes the definitive playbook for working learning and living in the new age of ai something new entered our world in november 2022 the first general purpose ai that could pass for a human and do the kinds of creative innovative work that only humans could do previously wharton professor ethan mollick immediately understood what chatgpt meant after millions of years on our own humans had developed a kind of co intelligence that could augment or even replace human thinking through his writing speaking and teaching mollick has become one of the most prominent and provocative explainers of ai focusing on the practical aspects of how these new tools for thought can transform our world in co intelligence mollick urges us to engage with ai as co worker co teacher and coach he assesses its profound impact on business and education using dozens of real time examples of ai in action co intelligence shows what it means to think and work together with smart machines and why it s imperative that we master that skill mollick challenges us to utilize ai s enormous power without losing our identity to learn from it without being misled and to harness its gifts to create a better human future wide ranging hugely thought provoking optimistic and lucid co intelligence reveals the promise and power of this new era

wall street journal bestseller an indispensable guide to decision making and risk taking for anyone who finds themselves afraid of making a wrong choice in their career this fresh new approach comes from one of the most highly regarded and well respected female tech executives in silicon valley who made many wrong choices in her career but learned how to turn those down moments into successes life is made up of a series of choices what do you do if one of those choices turns out poorly especially if it was carefully considered how do you trust your instinctive decision making skills and make the next right choice how do you continue to take risks when suddenly your risks are not working out sukhinder singh cassidy is one of the most highly regarded and well respected female tech executives in silicon valley but she ll be the first to admit that her path to success has been far from linear she started three companies that have done exceedingly well including theboardlist an organization designed to promote and place women onto corporate boards and she just served as president of stubhub which sold earlier this year for 4 billion but she s also encountered plenty of poor choices misfires unexpected headwinds and all other types of pitfalls that she had to learn how to confront analyze navigate and incorporate into her new path forward from her own experience she knows that personal success does not come from making one singular correct or big decision rather long range success comes from tackling numerous choices that are aimed to optimize future possibilities singh cassidy s seven myths of success as well as her advice on how to make fomo into your friend multiply your bets in life and understand why you shouldn t be blinded by passion bias all provide an entirely new way to approach risk taking and achieve lasting success

an instant new york times bestseller hotel magnifique opened the door to a sumptuous and glittering world of magic and mysteries and left me enchanted perfect for fans of caraval and the night circus erin a craig new york times bestselling author of house of salt and sorrows and small favors decadent and darkly enchanting this lavish ya fantasy debut follows seventeen year old jani as she uncovers the deeply disturbing secrets of the legendary hotel magnifique all her life jani has dreamed of elsewhere just barely scraping by with her job at a tannery she s resigned to a dreary life in the port town of durc caring for her younger sister zosa that is until the hotel magnifique comes to town the hotel is legendary not only for its whimsical enchantments but also for its ability to travel appearing in a different destination every morning while jani and zosa can t afford the exorbitant costs of a guest s stay they can interview to join the staff and are soon whisked away on the greatest adventure of their lives but once inside jani quickly discovers their contracts are unbreakable and that beneath the marvelous glamour the hotel is hiding dangerous secrets with the vexingly handsome doorman bel as her only ally jani embarks on a mission to unravel the mystery of the magic at the heart of the hotel and free zosa and the other staff from the cruelty of the ruthless maître d h tel to succeed she ll have to risk everything she loves but failure would mean a fate far worse than never returning home

how the rich and powerful use math to exploit you and what you can do to beat them at their own game everything we do today is recorded as data that s sold to the highest bidder plugging our personal data into impersonal algorithms has made government agencies more efficient and tech companies more profitable but all this comes at a price it s easy to feel like an insignificant number in a world of number crunchers who care more about their bottom line than your humanity it s time to flip the equation turning math into an empowering tool for the rest of us award winning mathematician noah giansiracusa explains how the tech giants and financial institutions use formulas to get ahead and how anyone can use these same formulas in their everyday life you ll learn how to handle risk rationally make better investments take control of your social media and reclaim agency over the decisions you make each day in a society that all too often takes from the poor and gives to the rich math can be a vital democratizing force robin hood math helps you to think for yourself act in your own best interests and thrive

the new york times usa today and wall street journal bestseller kai fu lee believes china will be the next tech innovation superpower and in ai superpowers china silicon valley and the new world order he explains why taiwan born lee is perfectly positioned for the task new york magazine in this thought provoking book lee argues powerfully that because of the unprecedented developments in ai dramatic changes will be happening much sooner than many of us expected indeed as the us sino ai competition begins to heat up lee urges the us and china to both accept and to embrace the great responsibilities that come with significant technological power most experts already say that ai will have a devastating impact on blue collar jobs but lee predicts that chinese and american ai will have a strong impact on white collar jobs as well is universal basic income the solution in lee s opinion probably not but he provides a clear description of which jobs will be affected and how soon which jobs can be

enhanced with ai and most importantly how we can provide solutions to some of the most profound changes in the future of human history

a text written for non specialist mental health nursing courses and suitable for undergraduate students from nursing and other health disciplines which is supported by integrated online resources this is an adaptation of a wiley blackwell title by harrison hart editors mental health care for nurses designed to meet the needs of undergraduate students mental health nursing is generally a core second year subject and may be taken by nurses paramedics occupational therapists and other health disciplines the focus is not on the general hospital as many nurses and other health professionals in australia will not necessarily be working in the hospital setting it is important to consider the role of the multidisciplinary team

to chat with the author ask your alexa device to open the voice computing book the next great technological disruption is coming the titans of silicon valley are racing to build the last best computer that the world will ever need they know that whoever successfully creates it will revolutionize our relationship with technology and make billions of dollars in the process they call it conversational ai computers that can speak and think like humans may seem like the stuff of science fiction but they are rapidly moving toward reality in talk to me veteran tech journalist james vlahos meets the researchers at amazon google and apple who are leading the way he explores how voice tech will transform every sector of society handing untold new powers to businesses overturning traditional notions of privacy upending how we access information and fundamentally altering the way we understand human consciousness and he even tries to understand the significance of the voice computing revolution first hand by building a chatbot version of his terminally ill father vlahos s research leads him to one fundamental question what happens when our computers become as articulate compassionate and creative as we are
