the self directed learning handbook offers teachers and principals an innovative program
for customizing schooling to the learning needs of individual students and for motivating

them to take increasing responsibility for deciding what and how they should learn whether the students are struggling or proficient the program is designed to nurture their natural passion for learning and mastery challenging them to go beyond the easy and familiar so they can truly excel the program can be introduced in stages in any middle or high school classroom and enables students of diverse abilities to design and pursue independent course work special projects or even artistic presentations community field work or apprenticeships using this approach the students take on an increasingly autonomous self directed role as they progress the heart of the program is the action contract or learning agreement whereby the student sets challenging yet attainable goals commits to a path for achieving them and evaluates the results special emphasis is placed on developing skills and competencies that can serve the student well in his or her academic and career endeavors

a practical complete and easy to use guide for understanding major chemistry concepts and terms master the fundamentals of chemistry with this fast and easy guide chemistry is a fundamental science that touches all other sciences including biology physics electronics environmental studies astronomy and more thousands of students have successfully used the previous editions of chemistry concepts and problems a self teaching guide to learn chemistry either independently as a refresher or in parallel with a college chemistry course this newly revised edition includes updates and additions to improve your success in learning chemistry this book uses an interactive self teaching method including frequent questions and study problems increasing both the speed of learning and retention monitor your progress with self tests and master chemistry quickly this revised third edition provides a fresh step by step approach to learning that requires no prerequisites lets you work at your own pace and reinforces what you learn ensuring lifelong mastery master the science of basic chemistry with this innovative self paced study guide teach yourself chemistry refresh your knowledge in preparation for medical studies or other coursework or enhance your college chemistry course use self study features including review questions and quizzes to ensure that you re really learning the material prepare for a career in the sciences medicine or engineering with the core content in this user friendly guide authored by expert postsecondary educators this unique book gently leads students to deeper levels and concepts with practice critical thinking problem solving and self assessment at every stage
