throughout the quest for the historical jesus there has been a parallel quest aimed at discovering new and improved methodologies for studying his life this methodological quest was originally driven by the belief that the gospels are so unique even sui generis among the literary works of their time that such historical experimentation to use schweitzer s words is necessary for the task of reconstructing jesus s life although most scholars today characterize the gospels as a form of graeco roman biography rather

than sui generis literature they nevertheless have continued this quest for new methodologies this has left historical jesus studies in a problematic methodological state in this book zolondek argues that if the gospels are indeed types of graeco roman biographies of jesus then no such experimentation is necessary rather historical jesus scholars should instead be adopting the standard methodological practices that historians and classicists have for decades used to effectively reconstruct the lives of other ancient persons who were also the subjects of graeco roman biographies after providing examples of three such methodological practices zolondek goes on to offer suggestions as to how scholars might apply them to the study of jesus and in doing so end their long running methodological quest

this is an ebook about science s effort to find the fabled grand unified theory

a hundred years after a schweitzer s von reimarus zu wrede the study of the historical jesus is again experiencing a renaissance ongoing since the beginning of the 1980 s this renaissance has produced an abundance of jesus studies that also display a welcome diversity of methods approaches and hypotheses the handbook of the study of the historical jesus is designed to handle this diversity and abundance drawing from first class scholarship throughout the world the four large volumes of the handbook offer a unique assembly of leading experts presenting their approaches to the historical jesus as well as a thought out compilation of original studies on a large variety of topics pertaining to jesus research and adjacent areas
