Ôthis book is very timely it provides important insights for bilateral cooperation and international negotiations these lessons go beyond euĐchina and euĐvietnam relations many of them are applicable to other countries in asia a region which will remain a key priority for eu foreign and climate policy not least as the euŐs largest trading partner Ő Đ from the foreword by jos delbeke director general ec dg climate action the governance of climate relations between europe and asia offers a thorough empirical study of the most fundamental dynamics involved in eu climate relations with china and vietnam in the context of global climate governance this book presents a study of the most important governance

processes in current euAsia climate relations it focuses on in depth empirical case studies offering a comprehensive relational perspective contributions on china cover the most essential issues interests and actors while the inquiry of euVietnam relations mainly focuses on the clean development mechanism as the main channel of bilateral climate action this landmark study will appeal to both policymakers and practitioners faced with the extraordinary task of managing the increasingly complex and multilevel interactions of current euAsia climate relations as well as global carbon market watchers and professionals dealing with emissions trading in the european union china and vietnam it will also be of interest to scholars and postgraduate students of international relations chinese and eu foreign policy global environmental and climate governance and international law

the book presents the main results of the collaboration of the v i ilichev pacific oceanological institute russian academy of sciences with marine research organizations of vietnam since 1981 to the present in the field of oceanography marine geophysics geology and ecosystem in the vietnam waters of the south china sea in chronological order a historical outline of the establishment and development of this cooperation as well as the main results of joint and unilateral studies in different areas of the studied region is given the structure and dynamics of water as well as their hydrochemical hydrophysical and gas geochemical characteristics are described data on lithology and mineralogy of bottom sediments the results of studying the geophysical fields and structure of the earth's crust as well as extreme synoptic processes and satellite observations of the south china sea are presented the book is addressed to a wide range of experts in the field of earth sciences

although the importance of infrastructure sectors in achieving economic growth and poverty reduction is well established raising debt and equity capital for infrastructure development and service provision has been a challenge for developing countries risk mitigation instruments facilitate the mobilization of commercial debt and equity capital by transferring risks that private financiers would not be willing to take to third party official and private institutions that are capable of taking such risks there has been increasing interest and discussion on risk mitigation instruments in the context of infrastructure financing among developing country governments multi and bilateral donors and the private sector however due to the complex and diverse nature of risk mitigation instruments what they can and cannot offer and how they can best be utilized for infrastructure financing are not well understood this book summarizes existing risk mitigation instruments primarily focusing on those offered by multilateral and bilateral official agencies and presents recent trends and developments that make these guarantee and insurance products valuable in securing financing for infrastructure projects in developing countries topics covered include descriptions of different types of risk mitigation instruments characteristics of multilateral bilateral and private providers of risk mitigation instruments and compatibility of instruments recent developments and innovative applications of risk mitigation instruments through

case transactions areas that pose challenges to the use of risk mitigation instruments as catalysts of infrastructure development projects and finance

asian populations are among some of the fastest growing cultural groups in the us while books on serving other target groups in libraries have been published e g disabled latino seniors etc few books on serving library users of asian heritage have been written thus the timely need for this book rather than a generalized overview of asians as a whole this book has 24 separate chapters each on 24 specific asian countries cultures of east southeast and south asia with a wealth of resources for understanding interacting with outreaching to and serving library users of each culture resources include cultural guides both print and online language helps with sample library vocabulary asian booksellers nationwide cultural groups professional literature and more resources and suggestions are given for all three types of libraries public school and academic making this book valuable for all librarians the demographics of each asian culture numbers and distribution plus history of immigration and international student enrollment is also featured as a bonus each chapter spotlights a us public school and academic library providing model outreach to asian library users additionally this book provides a detailed description and analysis of libraries in each of the 24 asian countries the history development facilities conditions technology classification systems and more of public school and academic libraries are all discussed with detailed documentation country conditions influencing libraries and library use are also described literacy levels reading cultures languages and writing systems educational systems and more based on the author s 15 years of research and travels to asia this work is a must have for all librarians

postwar journeys american and vietnamese transnational peace efforts since 1975 tells the story of the dynamic roles played by ordinary american and vietnamese citizens in their postwar quest for peace an effort to transform their lives and their societies hang thi thu le tormala deepens our understanding of the vietnam war and its aftermath by taking a closer look at postwar vietnam and offering a fresh analysis of the effects of the war and what postwar reconstruction meant for ordinary citizens this thoughtful exploration of us vietnam postwar relations through the work of us and vietnamese civilians expands diplomatic history beyond its rigid conventional emphasis on national interests and political calculations as well as highlights the possibilities of transforming traumatic experiences or hostile attitudes into positive social change le tormala s research reveals a wealth of boundary crossing interactions between us and vietnamese citizens even during the times of extremely restricted diplomatic relations between the two nation states she brings to center stage citizens efforts to solve postwar individual and social problems and bridges a gap in the scholarship on the us vietnam relations peace efforts are defined in their broadest sense ranging from searching for missing family members or friends helping people overcome the ordeals resulting from the war and meeting or working with former opponents for the betterment of their societies le tormala s research reveals how ordinary us and vietnamese citizens were active historical actors who vigorously developed cultural

ties and promoted mutual understanding in imaginative ways even and especially during periods of governmental hostility through nonprofit organizations as well as cultural and academic exchange programs trailblazers from diverse backgrounds promoted mutual understanding and acted as catalytic forces between the two governments postwar journeys presents the powerful stories of love and compassion among former adversaries their shared experiences of a brutal war and desire for peace connected strangers even opponents of two different worlds laying the groundwork for us vietnam diplomatic normalization

providing the latest available mineral data on the countries of africa and the middle east this yearbook discusses the importance of minerals to these nations economies it also includes production tables and industry structure tables

the first major synthesis of the war since 2001 drawing upon a host of newly declassified documents presidential tapes and overlooked foreign sources to give the most comprehensive look to date of the war that still haunts america

for as long as the vietnamese people fought against foreign enemies women were a vital part of that struggle the victory over the french at dien bien phu is said to have involved hundreds of thousands of women and many of the names in viet cong unit rosters were female these women were living out the ancient saying of their country when war comes even women have to fight
