this volume offers a thorough introduction to jewish world literatures in spanish and portuguese which not only addresses the coexistence of cultures but also the functions of a literary and linguistic space of negotiation in this context from the middle ages to present day the compendium explores the main jewish chapters within spanish and portuguese language world literature whether from europe latin america or other parts of the world no comprehensive survey of this area has been undertaken so far yet only a

broad focus of this kind can show how diasporic jewish literatures have been and are while closely tied to their own traditions deeply intertwined with local and global literary developments and how the aesthetic praxis they introduced played a decisive formative role in the history of literature with this epistemic claim the volume aims at steering clear of isolationist approaches to jewish literatures

culture and the cuban state examines the politics of culture in communist cuba it focuses on cultural policy censorship and the political participation of artists writers and academics such as tania bruguera jesús díaz rafael hernández kcho reynier leyva novo leonardo padura and josé toirac the cultural field is important for the reproduction of the regime in place given ambition to be eternally revolutionary and to lead a genuine cultural revolution cultural actors must be mobilized and handled with care given their presumed disposition to speak their mind and to cherish their autonomy this book argues that cultural actors also seek recognition by the main for a long time the only sponsor and patron of the art in cuba the curator state the curator state is also a gatekeeper state arbitrarily and selectively opening and closing the space for public expression and for access to foreign currencies and the global market the time when everything was either mandatory or forbidden is over in cuba the regime seems to have learned from egregious mistakes that led to a massive exodus of artists writers and academics in a country where things change so everything could stay the same the controlled opening in the cultural field playing on the actors ambition and fear illuminates a broader phenomenon the evolving rules of the political game in the longest standing dictatorship of the hemisphere

from today's vantage point it can be denied that the confidence in the abilities of globalism mobility and cosmopolitanism to illuminate cultural signification processes of our time has been severely shaken in the face of this crisis a key concept of this globalizing optimism as world literature has been for the past twenty years necessarily is in the need of a comprehensive revision world literature cosmopolitanism globality beyond against post otherwise offers a wide range of contributions approaching the blind spots of the globally oriented humanities for phenomena that in one way or another have gone beyond the discourses aesthetics and political positions of liberal cosmopolitanism and neoliberal globalization departing basically but not exclusively from different examples of latin american literatures and cultures in globalized contexts this volume provides innovative insights into critical readings of world

literature and its related conceptualizations a timely book that embraces highly innovative perspectives it will be a mustread for all scholars involved in the field of the global dimensions of literature
