none of us had the faintest idea where we were going but during 1938 39 the town christchurch was made strangely interesting for anyone like myself with the scattered arrival of the refugees all at once there were people among us who were actually from vienna or chemnitz or berlin who knew the work of schoenberg and gropius anthony alpers 1985 from the 1930s through the 1950s a substantial number of forced migrants refugees from nazism displaced people after world war ii and escapees from communist countries arrived in new zealand from europe among them were an extraordinary group of artists and writers photographers and architects whose european modernism radically reshaped the arts in this country in words and pictures strangers arrive tells their story ranging across the arts from photographer irene koppel to art dealer and printmaker kees hos architect imric porsolt to writer antigone kefala leonard bell takes us inside new zealand s bookstores and coffeehouses studios and galleries to introduce us to a compelling body of artistic work he asks key questions how were migrants received by new zealanders how did displacement and settlement in new zealand transform their work how did the arrival of european modernists intersect with the burgeoning nationalist movement in the arts in new zealand strangers arrive introduces us to a talented group of aliens who were critical catalysts for change in new zealand culture

this collection of essays which derive from a symposium held at the art institute of chicago in 2005 tells the story of how medieval art was collected by both individuals and institutions in the american midwest this book will appeal to both medievalists and scholars of nineteenth and twentieth century american history in addition it will also appeal to scholars who are interested in museum studies and the history of collecting the essays in the first section collecting and displaying medieval art consider the formation of medieval art collections at influential cultural institutions in three of the most important centers of industry and culture in the midwest chicago detroit and cleveland the second section medieval art as inspiration and education examines the motives of both private donors and museum professionals in forming collections and establishing period rooms and cloistered spaces at

museums in toledo kansas city and st louis among others at the opposite end of the spectrum was a new trend in curatorial practice beginning in the 1930s that favored the dismantling of period rooms and espoused displaying historical works of art in more distinctly modern settings a theme that pervades section three medieval art and modernism an essay on medieval art in midwestern university art museums and another one that considers the impact of works from medieval collections in special exhibitions serve as a remarkable coda to the rest of the volume two appendices follow this one that provides an overview of medieval art collections in midwestern university museums and another which provides a biographical sketch of prominent dealers of medieval art from 1900 1950

this story is a bizarre adventure in neuroscience it describes a small group of scientists and friends working in oxford who because of an accident are forced to embrace the principle of self experimentation the consequences of their actions are not only unforeseen but quite unprecedented in the world of biological science especially when they digitalise the entire conscious personality of sydney blumenthal a leading member of the group as the story unfolds it tries i hope in an entertaining way to explore the tantalising cross over between computer science genetics and medical science together with some of the strange legal and ethical ramifications this cross over creates it is this potent fertile mixture of disciplines which in many ways is already defining the future of medicine however i have no doubt that the medical wonders which will in fact come to define the future will far outstrip the imaginative scope of this story

tessa is a giant well she s almost a giant before she could reach the usual ten feet of most giants a fey queen offered her a potion to stunt her growth and it worked now she s living her best life yes she s six and a half feet tall but she s passing as human and she landed her dream job as a lawyer best of all she s dating her sexy new co worker who doesn t mind that she s an inch taller than him or that she s a virgin not that she plans on keeping that label for long but all of her perfect plans for the future are thrown into jeopardy when the fey queen who controls her potion forces her to defend a troll in a murder case who uses glamor to appear human now she ll have to carefully maneuver her way around a series of lies to keep her job her

secret and her boyfriend don't miss this exciting new chapter from the best selling everleaf series scroll up and order your copy today

the hanford site in southeastern washington state was built by the army corps of engineers and the dupont corporation during world war ii to produce plutonium for america's first atomic weapons the gigantic facility was immediately successful producing and delivering in less than two years the plutonium for the world's initial atomic explosion and for the bomb dropped on nagasaki that effectively ended world war ii this first complete history of hanford was made possible by the recent declassification of tens of thousands of formerly secret government documents relating to the construction operation and maintenance of the site it describes the releases planned and accidental of radioactive and chemical contaminants their pathways through the environment attempts to correct problems under conditions of rapid nearly chaotic change and the secrecy of government operations that made scientific review of hanford processes virtually impossible
