this book describes the ecoregions of saskatchewan following a hierarchical framework for terrestrial ecosystems in canada the introduction reviews ecological land classification and the various interrelated factors that are involved in the development of ecosystems geology water climate vegetation soils wildlife and human impacts the main section describes the province within the context of the four ecozones and 11 ecoregions that were identified in the framework for each ecoregion the book provides a description of the physical setting such as geology climate as well as the biological features that have developed in response to this

physical environment the impact of human activities on the ecology of the area concludes each of these descriptions appendices include lists of animal plant species found in saskatchewan and a glossary

at the turn of the nineteenth century saskatchewan was one of the fastest growing provinces in the country in the early 1900s it revolutionized the canadian political landscape and gave rise to socialist governments that continue to influence canadian politics today it was the birthplace of canada s publicly funded health care system and home to a thriving arts and literary community that helped define western canadian culture in perspectives of saskatchewan twenty one noted scholars present an in depth look at some of the major developments in the province s history including subjects such as art literature demographics politics northern development and religion it lays the foundations for a greater understanding of saskatchewan s unique history identity and place in canada

from the optimism associated with provincial status in 1905 through the trials of depression and war the boom times of the post war period and the economic vagaries of the 1980s and 1990s the twentieth century was a time of growth and hardship development challenge and change for saskatchewan and its people and during the century twelve men from a variety of political parties and from very different backgrounds led the government of this province the names of some like t c douglas and roy romanow are still household names while others like charles dunning and william patterson have been all but forgotten yet each in his unique way for better or for worse helped to mould and steer the destiny of the province he governed these are their stories

saskatchewan geographic perspectives is saskatchewan s first comprehensive geography textbook its major sections cover these themes physical geography historical and cultural geography population and settlement and economic geography eighteen chapters provide an excellent overview of the province from a variety of geographic perspectives while twenty nine focus studies explore specific topics in depth presents the work of forty three scholars and is well illustrated with more than 150 figures 70 tables and over 60 full colour plates it also includes full reference lists and a comprehensive index although prepared specifically for use in post secondary geography programs this book is also appropriate for high school research projects and for anyone interested in the many facets of this vast and varied province googlebooks
