food security emerged as an issue in the first decade of the 21st century questioning the sustainability of the human race which is inevitably related directly to the agricultural water management that has multifaceted dimensions and requires interdisciplinary expertise in order to be dealt with the purpose of this book is to bring together and integrate the subject matter that deals with the equity profitability and irrigation water pricing modelling monitoring and assessment techniques sustainable irrigation development and management and strategies for irrigation water supply and conservation in a single text the book is divided into four sections and is intended to be a comprehensive reference for students professionals and researchers working on various aspects of agricultural water management the book seeks its impact from the diverse nature of content revealing situations from different continents australia usa asia europe and africa various case studies have been discussed in the chapters to present a general scenario of the problem perspective and challenges of irrigation water use

in this volume prominent political theorist michael zuckert presents an important and pathbreaking set of meditations on the thought of john locke in more than a dozen provocative essays many appearing in print for the first time zuckert explores the complexity of locke s engagement with his philosophical and theological predecessors his profound influence on later liberal thinkers and his amazing success in transforming the political understanding of the anglo american world at the same time he also demonstrates locke s continuing relevance in current debates involving such prominent thinkers as rawls and macintyre zuckert s careful reconsideration of locke s role as launcher of liberalism involves a sustained engagement with the hermeneutical issues surrounding locke an innovator who faced special rhetorical needs in addressing his contemporaries and the future it also involves highlighting the novelty of locke s position by examining his stance toward the philosophical and religious traditions in place when he wrote zuckert argues that neither of the dominant ways of understanding locke s relations to his predecessors and contemporaries is adequate he is not well seen as a follower of any orthodoxy nor of any anti orthodoxy of his day either philosophical or theological he found a path to innovation that was philosophically radical but which was also able to connect with prevailing and accepted traditions that allowed him to exercise a practical influence in history rarely if ever matched by any other philosopher zuckert illustrates that influence by showing how william blackstone used lockean philosophy to reshape the common law and how the americans of the eighteenth century used lockean philosophy to reshape whig political thought zuckert argues that locke s philosophy has continuing philosophic and political force a proposition he demonstrates by arguing that locke presents a form of political philosophy superior to that of the liberal theorists of our day and that he has solid rejoinders to contemporary critics of liberalism

offers an introduction to the ideas and skills of solving problems creatively in the world of business and management

at the nexus of politics and policy development lies persistent conflict over where problems come from what they signify and based on the answers to those questions what kinds of solutions should be sought policy researchers call this process problem definition written for both scholars and students this book explains how and why social issues come to be defined in different ways how these definitions are expressed in the world of politics and what consequences these definitions have for government action and agenda setting dynamics the authors demonstrate in two theoretical chapters and seven provocative case

studies how problem definition affects policymaking for high profile social issues like aids drugs and sexual harassment as well as for problems like traffic congestion plant closings agricultural tax benefits and air transportation by examining the way social problems are framed for political discussion the authors illuminate the unique impact of beliefs values ideas and language on the public policymaking process and its outcomes in so doing they establish a common vocabulary for the study of problem definition review and critique the insights of existing work on the topic and identify directions for future research

global media ethics global media ethics problems and perspectives the book pleads convincingly that news media outlets and practitioners should urgently reconsider their practices and norms in a world gone global and digitally convergent the various contributions broach the topic from completely different perspectives to create a very stimulating and constructive framework to identify and face the new ethical challenges of journalism and the news media françois heinderyckx université libre de bruxelles news that crosses boundaries of culture and geography means rethinking media ethics the demands of role audience digital transmission and an industry under fierce economic pressure require the insightful approach to ethical thinking this volume provides from theory to practice this book has something for scholars and professionals alike lee wilkins journal of mass media ethics global media ethics is a cross cultural exploration of the conceptual and practical issues facing media ethics in a global world focusing on the ethical concepts principles and questions in an era of major change this unique textbook explores the aims and norms that should guide the publication of stories that impact across borders and which affect a globally linked pluralistic world through case studies analysis of emerging practices and theoretical discussion a team of leading journalism and communication experts investigate the impact of major global trends on responsible journalism and lead readers to better understand changes in media ethics chapters look at how these changes promote or inhibit responsible journalism how such changes challenge existing standards and how media ethics can develop to take account of global news media in light of the fact that media journalism is now and will increasingly become multimedia in format and global in its scope and influence the book argues that global media impact entails global responsibilities it is therefore critical that media ethics rethinks its basic notions standards and practices from a more cosmopolitan perspective

in this pathbreaking work the author integrates questions of justice and stability through a model of deliberative democracy in the plural polity deliberative democracy and the plural polity provides a realistic but critical reform agenda that can animate struggles for justice in an enormously diverse world
