most american indian reservations are islands of poverty in a sea of wealth but they do not have to remain that way to extract themselves from poverty native americans will have to build on their rich cultural history including familiarity with markets and integrate themselves into modern economies by creating institutions that reward productivity and entrepreneurship and that establish tribal governments that are capable of providing a stable rule of law the chapters in this volume document the involvement of indigenous people in market economies long before european contact provide evidence on how the wealth of indian nations has been held hostage to bureaucratic red tape and explains how their wealth can be unlocked through self determination and sovereignty

introduction to global social problems introduces undergraduate students to national and international social problems from a critical sociological perspective isaac zvi christiansen presents clear descriptions of each social problem explains key concepts and provides students with the relevant theoretical tools needed to grasp the interconnected nature of these phenomena this volume covers significant and interconnected issues the book begins with an explanation of how corporate interests distort the depiction of social problems chapters **2** and **3** provide empirical explorations of poverty and inequality on national and global scales together with clear and accessible expositions of relevant sociological theories chapter **4** examines health and educational inequalities exacerbated by the economic inequalities discussed in chapters **2** and **3** chapter **5** introduces students to issues of racial inequalities in the united states and abroad while chapter **6** takes a comparative approach to examining crime and criminal justice chapter **7** examines modern day imperialism and war with special attention given to the military industrial complex and a brief review of us interventions around the world in the twentieth and twenty first centuries chapter **8** examines politics and human rights including a critical historical and sociological analysis of israeli settler colonialism and successive us israeli assaults on gaza the book closes with an examination of population and the environment with special attention given to climate change and the pressing contradictions between capitalism and the environment this textbook will be a vital resource for introductory students across the social sciences especially in sociology political science and global studies it provides critical wraparound coverage of the momentous embedded social problems that interconnect across social national and regional boundaries

master s thesis from the year **2020** in the subject politics topic international relations grade first class honours course strategic marketing language english abstract this study aims at to establish the cause and effect relationship between china s nation brand dimensions and china s nation brand efforts on the perceptions of its nation brand in kenya the theories that were chosen as the theoretical base of this study were nations branding anholt s nation brand index and country of origin effect three research questions were asked around the theory base and a survey was done on **75** professionals in nairobi results obtained from the respondents allowed for statistical analysis the results indicated that the china has a strong nation brand in kenya kenyans are very familiar with and favourable towards china s nation brand however china s country of origin has minimal effects on purchasing decisions in kenya kenyan purchasing decisions are influenced by the cost and quality of products from china

drawing on the thought of max weber in particular his theory of stratification this book engages with the question of whether the digital divide simply extends traditional forms of inequality or whether it also includes new forms of social exclusion or perhaps manifests counter trends that alleviate traditional inequalities whilst constituting new modalities of inequality with attention to the manner in which social stratification in the digital age is reproduced and transformed online the author develops an account of stratification as it exists in the digital sphere advancing the position that just as in

the social sphere inequalities in the online world go beyond the economic elements of inequality as such study of the digital divide should focus not simply on class dynamics or economic matters but cultural aspects such as status or prestige and political aspects such as group affiliations demonstrating the enduring relevance of weber s distinctions with regard to social inequality the third digital divide a weberian approach to rethinking digital inequalities explores the ways in which online activities and digital skills vary according to crucial sociological dimensions explaining these in concrete terms in relation to the dynamics of social class social status and power as such it will be of interest to social scientists with interests in sociological theory the sociology of science and technology and inequality and the digital divide
