in this important book nicholas hartlep and daniel scott s detailed analyses on both visual and historical representations of asian americans in textbooks and teacher manuals used in our elementary and secondary schools poignantly tell us that generations of children are growing up being fed this single story about asian americans as hartlep and scott write asian americans have once again been constructed as the good minority that can succeed on their own and be used as a political instrument to shame the blacks for their underachievement and their fight for equality over and over again the media has been telling a single story about asian americans to the public for the past fifty years the consequence of this fabricated story is that it discourages others even asian americans themselves from believing in the validity of their struggles linshi 2014 p 1

school textbooks in iran saudi arabia egypt and elsewhere in the arab and muslim worlds are filled with anti western and anti israel propaganda most readers will be shocked to discover that history and geography textbooks widely used in america s elementary and secondary classrooms contain some of the very same inaccuracies about jews judaism and israel did you know that there is no record of any important jewish contribution to the sciences world civilizations thomson wadsworth or that christianity was started by a young palestinian named jesus the world scott foresman pearson supplemental materials and other classroom influences are even worse the trouble with textbooks exposes the poor scholarship and untruths in textbooks about jews and israel the problems uncovered in this ground breaking analysis are instructive and illustrate the need for reform in the way textbooks are developed written marketed and distributed substitute another area how we teach american history western civilization or comparative religion and we have another equally intriguing case study the trouble with textbooks shows what can go terribly wrong in discussing religion geography culture or history and in this case all of them the trouble with textbooks tells a cautionary tale for all readers

whatever their background of how textbooks that americans depend on to infuse young people with the values for good citizenship and to help acculturate students into the multicultural salad that is american life instead disparage some groups and teach historical distortions with millions of young people using these textbooks each year the denigration of some should be a concern for all
