this book seeks to move emphasis away from the over riding importance given to the state in existing studies of western medicine in india and locates medical practice within its cultural social and professional milieus based on bengali doctors writings this book examines how various medical problems challenges and debates were

understood and interpreted within overlapping contexts of social identities and politics on the one hand and their function within a largely unregulated medical market on the other

the subject of medicalisation of childbirth in colonial india has so far been identified with three major themes the attempt to reform or sanitise the site of birthing practices establishing lying in hospitals and replacing traditional birth attendants with trained midwives and qualified female doctors this book part of the series the social history of health and medicine in south asia looks at the interactions between childbirth and midwifery practices and colonial modernities taking eastern india as a case study and related research from other areas with hard empirical data from local government bodies municipal corporations and district boards it goes beyond the conventional narrative to show how the late nineteenth century initiatives to reform birthing practices were essentially a modernist response of the western educated colonised middle class to the colonial critique of indian sociocultural codes it provides a perceptive historical analysis of how institutionalisation of midwifery was shaped by the debates on the women s question nationalism and colonial public health policies all intersecting in the interwar years the study traces the beginning of medicalisation of childbirth the professionalisation of obstetrics the agency of male doctors inclusion of midwifery as an academic subject in medical colleges and consequences of maternal care and infant welfare this book will greatly interest scholars and researchers in history social medicine public policy gender studies and south asian studies

leprosy widely mentioned in different religious texts and ancient scriptures is the oldest scourge of humankind cases of leprosy continue to be found across the world as the most crucial health problem especially in india and brazil there are a few maladies that eventually turn into social disquiets and leprosy is undoubtedly one of them this book traces the dynamics of the interface between colonial policy on leprosy and religion science and society in bengal from the mid nineteenth to the first half of the twentieth centuries it explores how the idea of degeneration and the desolates shaped the colonial legality of segregating lepers in indian society the author also delves into the treatments of leprosy that were often transfigured from original english texts written by american or british medical professionals into bengali rich in archival resources this book is an essential read for scholars and researchers of history indian history public health social history medical humanities medical history and colonial history
