Virtual reference today's fastest expanding library service raises many complex policy and implementation questions. Unfortunately, this service is in an early stage and experiences are limited. This groundbreaking volume combines the most current thinking and theory from experts and relates it to real world virtual reference projects, studies, and findings from libraries across the nation. The editors have arranged the contributions into four distinct parts: patrons of digital reference services, digital reference librarians, digital reference services and policies, and the broader context of digital reference to highlight the users, staff services, as well as societal, legal, and political environments within which digital reference services exist. The 13 chapters are based on presentations at the virtual reference desk conference, the nation's premier event for digital reference practitioners that have been developed, updated,

and refined for inclusion here they cover design operation and marketing of services user perceptions training personal interaction policies best practices and guidelines user surveillance and privacy and much more reference librarians administrators and information professionals will find these innovative ideas and practical experiences from the cutting edge of virtual reference invaluable
