building on the influential book the social construction of technological systems this volume carries forward the project of creating a theory of technological development and implementation that is strongly grounded in both sociology and history technology is everywhere yet a theory of technology and its social dimension remains to be fully developed building on the influential book the social construction of technological systems this volume carries forward the project of creating a theory of technological development and implementation that is strongly grounded in both sociology and history the 12 essays address the central question of how technologies become stabilized how they attain a final form and use that is generally accepted the essays are tied together by a general introduction part introductions and a theoretical conclusion the first part of the book examines and criticizes the idea that technologies have common life cycles three case studies

cover the history of a successful but never produced british jet fighter the manipulation of patents by a french r d company to gain a market foothold and the managed development of high intensity fluorescent lighting to serve the interests of electricity suppliers as well as the producing company the second part looks at broader interactions shaping technology and its social context the question of who was to define steel the determination of what constitutes radioactive waste and its proper disposal and the social construction of motion pictures as exemplified by thomas edison s successful development of the medium and its commercial failure the last part offers theoretical studies suggesting alternative approaches to sociotechnologies two studies argue for a strong sociotechnology in which artifact and social context are viewed as a single seamless web while the third looks at the ways in which a social program is a technology

in a time when the need for and the relevance of the gospel has seldom been greater the relevance of the church has seldom been less the shaping of things to come explores why the church needs to rebuild itself from the bottom up frost and hirsch present a clear understanding of how the church can change to face the unique challenges of the twenty first century this missional classic has been thoroughly revised and updated

in 2002 philip jenkins wrote the next christendom over the past half century the centre of gravity of the christian world has moved decisively to the global south says jenkins within a few decades european and euro american christians will have become a small fragment of world christianity by that time christianity in europe and north america will to a large extent consist of southern derived immigrant communities southern churches will fulfil neither the liberation dream nor the conservative dream of the north but will seek their own solutions to their particular problems jenkins book evoked strong reactions a bit to his own surprise as the book contained little new in the united states of america the prospect of a more biblical christianity caused reactions of alarm in liberal circles in contrast conservatives were delighted by the same prospect in europe the book landed in the middle of the debate on europe as an exceptional case it was detested by those who stick to the theory of ongoing and irreversible secularisation and welcomed by those who see a resurgence of religion also in europe in the present volume scholars of religion and theologians assess the global trends in world christianity as described in philip jenkins book it is the outcome of an international conference on southern christianity and its relation to christianity in the north held in the conference centre of radboud university nijmegen the netherlands

we ask much of our leaders and blame them for ay failure to order the world to our liking yet many of us are reluctant to engage preferring to disparage leaders as a class apart a quarrelsome lot and overpaid to boot the useful butt of barbecue humour will we engage better with the next generation of leaders will they conduct a kinder gentler national conversation in this book 36 australian voices both early achievers and the venerable from across the political and social landscape offer fresh ideas and timeless wisdom for people entering public life whether you

are a budding politician advisor lobbyist advocate local councillor ngo leader social activist blogger philanthropist sporting administrator or the representative of an industry the arts a profession or a trade you are in public life this book will deepen your understanding of what you must know do say and be to succeed philip crisp has done us all an enormous favour by assembling not only a first class and diverse group of leaders but ones who are willing to be frank confronting and not merely offering the usual leadership platitudes simon mckeeon ao australiano of the year 2011 a must read for any aspiring leader a treasure trove of invaluable insights into effective leadership laurie wilson president national press club a most timely and comprehensive analysis of leadership and the making of good leaders compulsory reading anne henderson am political historian

an introduction to and meditation on the key concepts history evolution complexities and importance of law in our nation s 233 year existence

a review of oral development and histology each chapter provides an outline and an overview of the subject and includes review questions to enhance learning and evaluate progress clinical correlations are provided to apply basic science principles to the daily practice of dental care
