Elayn Martin-Gay believes every student can succeed and that is the motivating force behind her best-selling texts and acclaimed video program with Martin-Gay. You get 100% consistency in voice from text to video. Prealgebra 5e is appropriate for a 1-semester course in prealgebra and was written to help students effectively make the transition from arithmetic to algebra. To reach this goal, Martin-Gay introduces algebraic concepts early and repeats them as she treats traditional arithmetic topics, thus laying the groundwork for the next algebra course your students will take.
