inhaltsangabe abstract for several years business process management bpm has been more than just a catchword smooth and efficient processes are important for organizations in order to be able to survive or even more difficult to operate successfully in a constantly changing environment of fierce competition ort account of that processes must be understood and formally described the modelling of processes is a major task in bpm also in the course of total quality management often in connection with certification as well as for the selection and installation of standard software products and the development of individual applications process models are needed the search for new forms of working and especially the rapid development of telecommunication technologies has led to a revival of the discussion about teleworking which has already been started approximately 20 years ago in comparison to bpm the development of teleworking is less advanced for several reasons among them the prospect of new jobs in less developed regions teleworking is promoted by governments as well as by international and supranational organizations hence it can be assumed that this form of working will become more and more popular for responsible managers in their different businesses this means that they will more frequently be confronted with the task of integrating teleworking in existing processes if a company decides to make teleworking possible for some of its employees several aspects haue to be considered technology the teleworker s place of work has to be equipped with technical devices as well as the company might need additional equipment infrastructure is necessary for communication between teleworker and company organization jobs that are appropriate for teleworking have to be identified in this context the current processes should be critically regarded and if necessary adapted legislation the form of the teleworker s employment contract employer s liability for accidents regulations regarding working hours are some of the questions that have to be tackled personality particularly important are personal characteristics of the people concerned teleworkers must be self disciplined and haue a strong sense of responsibility their superiors must be able to adopt an objective oriented management style based an trust instead of continuous supervision technology and legislation are important issues yet they do not

this book contains the first documentation of combining house tree and person into a single drawing it helps enrich clinician s test batteries and aids psychologists and physicians in understanding the emotions and self awareness of their clients it is richly illustrated and teaches the important skill of using visual metaphors in clinical settings to understand and assist clients the author covers all aspects of drawing interpretation including size placement stroke or line characteristics and the possible individual characteristics of each element within the house tree and person drawings

in sign language interpreting sli there is a great need for a volume devoted to classic and seminal articles and essays dedicated to this specific domain of language interpreting students educators and practitioners will benefit from having access to a collection of historical and influential articles that contributed to the progress of the global sli profession in sli there is a long history of outstanding research and scholarship much of which is now out of print or was published in obscure journals or featured in publications that are no longer in print these readings are significant to the progression of sli as an academic discipline and a profession as the years have gone by many of these readings have been lost to students educators and practitioners because they are difficult to locate or unavailable or because this audience simply does not know they exist this volume brings together the seminal texts in our field that document the philosophical evidence based and analytical progression of sli work

comprehensive handbook of psychological assessment volume 2 presents the most up to date coverage on personality assessment from leading experts contains contributions from leading researchers in this area provides the most comprehensive up to date information on personality assessment presents conceptual information about the tests

we gratefully acknowledge the financial support of cost european cooperation in science and technology funded by the horizon 2020 framework programme of the european union current grammatical knowledge about particular sign languages is fragmentary and of varying reliability and it appears scattered in scientific publications where the description is often intertwined with the analysis in general comprehensive grammars are a rarity the signgram blueprint is an innovative tool for the grammar writer a full fledged guide to describing all components of the grammars of sign languages in a thorough and systematic way and with the highest scientific standards the work builds on the existing knowledge in descriptive

linguistics but also on the insights from theoretical linguistics it consists of two main parts running in parallel the checklist with all the grammatical features and phenomena the grammar writer can address and the accompanying manual with the relevant background information definitions methodological caveats representative examples tests pointers to elicitation materials and bibliographical references the areas covered are phonology morphology lexicon syntax and meaning the manual is endowed with hyperlinks that connect information across the work and with a pop up glossary the signgram blueprint will be a landmark for the description of sign language grammars in terms of quality and quantity

personnel selection is changing whilst traditional face to face interviews are still common the range of assessment processes that inform the selection of candidates is increasingly diverse taking advantage not only of new technologies but also using new methods and strategies such as assessment centres and personality testing this new collection looks at the most important contemporary issues in recruitment selection and assessment today highlighting the latest research from the perspective of both recruiter and applicant the book is written by an international range of prominent scholars in this area and provides up to date analysis of key topic areas including how measurements of intelligence can impact on recruitment policies the use and value of personality tests an analysis of social interaction in the interview process the value and impact of video resumes in recruitment how social networks affect how applicants are perceived job analysis and competencies modelling part of the current issues in work organizational psychology series this is an important book that shines a light on the latest theory and practice in employee recruitment it will interest not only students and researchers of organizational psychology hrm and business and management but will also engage professionals in the field

emotionally charged issues abound in matrimonial practice especially in custody disputes expert testimony can have a dramatic impact on the outcome of a case and when matters are highly sensitive or sensational the seeming objectivity of an expert can be dispositive to effectively reinforce or question that testimony certain specialized knowledge is essential scientifically accepted standards and theories are constantly evolving keeping up with the data had been a challenge but one integrated resource has made it simple aspen publishers psychological experts in divorce actions pulls all the research together into the definitive guide to understanding the role of psychological evaluations in divorce and custody actions focused on providing the best approach to protecting your client s interests this work explains all the leading testing instruments what

conclusions may be drawn and how to challenge or support those conclusions in addition to offering effective examination and cross examination strategies it assists you in handling the gamut of psychological factors that affect clients in divorce and custody cases authors marc j ackerman ph d and andrew w kane ph d are licensed psychologists who have been involved in hundreds of custody cases drawing on their extensive experience testing parties to a divorce and treating psychological patients in the clinic and as psychological experts in the courtroom they identify the most important psychological evaluation research used in divorce and custody decision making and distill the information into clear terms lawyers can readily apply they also examine vital issues including ethics confidentiality privilege duty to warn or protect tarasoff sharing raw data test integrity sexual abuse bona fide or fabricated allegations psychological effects of sexual abuse profiles of abuser and abused testing personality tests including mmpi 2 and the new mmpi 2 rf rorschach millon tat intelligence tests wechsler scales kaufman scales stanford binet custody tests aspect pcri pass bps and many more how divorce affects families custody placement age and gender differences grandparents sexual preference psychological problems
