the cheat on summer the cheat but not cheating emphasized on how to cheat and never get caught the cheat but not cheating is the ultimate guide to becoming a serial cheater with thousands of honest encounters over 14 years of tried and tested strategies by the author himself the book includes safety rules for success and the skills you need to find your sex partner and keep coming back for more and the author s secret weapon on how to impress your partner in some passion rocket fuel according to my definition of infidelity a breach of trust that occurs when you keep intimate and meaningful secrets from your primary romantic partner the difference if any is not in the specifics of your behavior but the depth of lies and secrecy of this behavior has an impact on your partner for example your partner may not care that you have lunch with an attractive coworker every once in a while as long as you re open honest and reply to it first if you go to lunch with this coworker and keep it a secret your partner may feel hurt abandoned and betrayed this is true even if you have no sexual or romantic interest in your coworker cheating microcheating otherwise is not behavior but more about lying and keeping secrets and the impact of those lies and secrets on your partner of course it s all subjective depending on the couple and the relationship boundaries they ve agreed to this means that certain behaviors can be like being completely unfaithful to a couple cheating on others and not cheating on others at all for example some couples may think that using pornography while on a business trip is considered cheating while another couple may consider it cheating cloth and another couple might think it s not a problem at all the same can be said for flirting texting webcams and more i think it s important to

point out here that much of what most people consider microcheating is relatively normal behavior both in and out of a relationship if you see someone you find attractive and that person smiles at you you will likely return your best smile regardless of your relationship status

men are constantly being accused of being unfaithful but in my personal opinion women are equally guilty of engaging in what are now being referred to as entanglements how many women are parading around on daytime television after being asked to take paternity tests because of their salacious behavior to prove that the man that they are claiming to be the father of their children are indeed the responsible individual and almost half of the time they get caught up with the dna results after which they run off the stage crying and falling out on that famous couch there is also a law in many states that automatically makes a married man the involuntary father of the child by default even if he is not the biological father of the child he then has to pay child support for a child that might not even be his genetically because by law it is in the best interest of the child to have a man that could have been cheated on be held financially responsible for a decision that his cheating wife made within the confines of their loving marriage with that being said let us take a look at the scenario of why a woman who are said to be in love with her significant other could end up in the arms and the bed of another male lover
