the title says it all concise straight to the point guidance on developing a winning computer trading system copyright libri gmbh all rights reserved

an award winning system developer explains how to create test and implement a profitable trading system traders have long been drawn to the idea of translating their strategies and ideas into trading systems while successful trading systems have been developed in most cases they work very well for a period of time in specific markets but perform less well across all markets in all time frames nobody understands this better than author keith fitschen a thought leader in trading system development and now with trading strategy generation website he shares his extensive experience in this field with you trading strategy generation skillfully explains how to take market insights or trading ideas and develop them into a robust trading system in it fitschen describes the critical steps a trader needs to follow including translating the market insight into a rules based approach determining entry and exit points testing against historical data and integrating money management and position sizing into the system written by an award winning system developer who has actively traded his systems for thirty years introduces new ideas on money management and position sizing for different markets details exactly

what it takes to build test and implement a profitable technical trading system a companion website contains supplementary material including excel spreadsheets designed to rate the strength of entry signals and provide money management guidance based on market volatility and portfolio correlations written with the serious trader in mind trading strategy generation is an accessible guide to building a system that will generate realistic returns over time

if you are fed up with trading systems that promise the earth and fail to deliver then the 10xroi trading system will not disappoint a leading foreign exchange broker conducted a study that found that winning traders had something in common their wins were much larger than their losses many trading systems are designed to have lots of wins but that doesn't make them profitable they just appeal to the holy grail seeker who is looking for a trading system that never loses by trading high probability trading strategies that give a very large risk reward ratio like the 10xroi trading system you will automatically have a much higher chance of actually making a profit in the forex markets you may be an experienced trader who has already taken many trading courses or you may be just trying to decide on the best trading system for your personality and life circumstances written by a trader with over eight years of experience in trading foreign currencies gold and futures this book is written in an easy to comprehend style with lots of illustrations and trading examples to help clarify each part of the system this trading strategy is simple and easy to follow and takes up a very small amount of time as it uses the daily and hourly time frames unlike most day trading systems this makes it easy to trade around most jobs most importantly it explains every part of the system including the correct trading psychology and money management which most systems leave out recent review ever heard the expression buy low sell high or how about let your winners run and cut your losses i especially like ensure your winners exceed your losses i just finished reading a book on the quants whose mantra is to put the maths or the odds on your side oh and i love the jesse livermore quote it never was my thinking that made the big money for me it always was my sitting great sayings wonderful

sayings fantastic but my thinking most retail strategies do not capture most if any of these principles so is there a methodology that retail traders can use even with limited funds that captures all of this and i mean all of this i believe there is. It has put together a strategy that does as the big boys do focusses not on consistency of trades but consistency of the trader using a simple intuitive market rhythmic approach of the strategy does it buy low sell high yes are winners run losses cut yes do winners exceed losers yes is the maths on your side yes do you wait for trades to come to you yes i have been trading the 10xroi strategy for just over a month now the last two weeks of trading has seen me bag over 1000 pips and yet that is not i repeat not the focus or what impresses me it is the rate of return each trade aims for a take profit of 10r and always a stop loss of 1r which i have achieved while it s still early days for me i already know the principles taught are the principles practiced and espoused by the world s foremost traders there is no magic bullet just sound time tested principles focussed on patience a simple strategy money management and sound psychology why reinvent the wheel just spin that thing kevin

the new forex market trading system is a trading system which helps forex traders to maximize profit on every trade signal generated by this new system the trading system strengthen the forex trader decision capacity with effective trading strategy that determines accurate entry and exit points with a proven protective stop loss technique that work consistently without any form of failure this new forex market trading system and trading strategy help forex traders to reduce and eliminate possible losses that could result from the trader s actions in the forex market because this new trading system guarantees maximum profit from every trade transactions in the forex market the new forex market trading system as presented in this book captures the three major components of the forex market and processes this data into useful and reliable market information that forex market traders can work with as regards making informed decisions which enhances the forex trading business this trading system enables a forex trader to have broader view of the forex market and a concise presentation
