astrology is the oldest science in the world most would exclaim it is not a science but let's face it it is a study of cycles involving mathematics in which numbers and vibration are the crux of the universe throughout history ignorance has kept us from the truth and those who tried to present the truth were imprisoned and even killed galileo was condemned for saying the earth was round and it revolved around the sun instead of the sun revolving around us this law of the universe is so simple but at the same time so hard to change in our everyday life the law of attraction or law of cause and effect simply means what we think about and say we will attract to us

astrology is the divine science that makes sense of the order of the universe in this book you will come to

understand how mathematically numbers are the bases of astrology the houses in astrology are the core essence that will give numbers meaning once the meanings of houses are understood in terms of the numerical order the perfection of the universe is revealed the houses reflect the purpose and meaning of life and how everything is interconnected and related in this book the meanings of numbers and how they relate to each other come alive through the meanings of the houses it will reveal our spiritual journey through life from birth to old age the houses are divided into the categories of the 4 aims of life which are the 4 elements this gives an understanding of the energetic flow of how life unfolds and the purpose and meaning of our lives this is revealed from the understanding of fire dharma earth artha air kama and water moksha as the planets are placed into the houses the areas of one's life and destiny become clear as to the karmas of the soul the houses the planets rule and the houses they are placed indicates the intricacies of an individual's life the houses are assessed through the experiences of seasoned astrologer joni patry from many years of working with planets signs and houses in her personal life and with clients in each chapter all 12 houses are explored with deep and profound understanding leaving no stone unturned the book is organized in this way the houses are grouped according to the 4 elements or 4 aims of life each house is analyzed as it is in relation to all the other houses giving deep perception into the meaning of numbers for example the 2nd house rules our personal finances therefore the 2nd house to any house indicates financial gains from the house in question the 8th house is the 2nd house from the 7th house indicating the partner's 7th house money 2nd from the 7th house each house is understood by its relationship to other houses and bhavat bhavam for example the 5th house represents children counting 5 houses from the 5th house is the 9th house so the 9th house is our children's children or grand children each planet is analyzed and interpreted in all the houses and the planet's rulership of each house is analyzed as it is placed in all 12 houses each house has 2 birth charts of famous individuals to explain the core essence of what the house means finally all the planets are analyzed as they transit through all the houses future predictions are revealed through the understanding of all the transiting planets through all 12 houses this is the most in depth analysis of the understanding and meaning of the astrological houses using numbers signs and planets in astrology amazing and powerful this will change the way you view astrology through
